Culture in Hannover

Hannover is a city with a lot of focus on cultural activities. First of all, there is the “Opernhaus” (P1) which is a big opera, though it also hosts musicals frequently. Across from that we have the G.O.P, which is a theater with a heavy focus on gymnastics. There is also the “Schauspielhaus” which is not just one theatre, but rather a big group with different locations.

Hannover also has several museums, like the “Sprengel Museum”, which focuses on art, or the “Landesmuseum”, which is most notorious for their fish exhibit.
