FINAL EVALUATION OF THE PROJECT

FINAL EVALUATION QUESTIONNAIRE ERASMUS+ 2017-2019

Students/parents or relevant stakeholders participating directly or indirectly in this project answered this questionnaire. There were 499 answers. The questionnaire was conducted online. In this material that presents the evaluation answers that the participants gave, we first inserted the evaluation questionnaire that was turned into a google document and then the results themselves.

1. Which country are you from? *

Greece

Italy

Portugal

Romania

Turkety

2. How were you involved in the project activities? *

Member of the project team

Devising the project logo and voting for the best one

Survey about leisure time and how it benefits youngster's life

Participant in the campaign for healthy eating

Respondent in the questionnaire on sports

Participant in the campaign for doing sport

Reading the selected books

Developing techniques for teaching literature in a pleasant way

Teaching classmates literature through the techniques the project has developed

Participant in the questionnaire on Saving Energy

Studying ways to save energy

Conducting an experiment about saving energy together with the family

Researching about environmental issues at home, school and country

Participant in the Environmental Campaign

Participating in the Job Fair - workshops, job interviews, writing CVs

Recipient of the dissemination activities through presentations and workshops

I read the information about the project results in the school magazine, website and Facebook group

Taking part on the environmental campaign at school and with the local community

Accessing information about the project results on the project website, Facebook and Twin space

Taking part in dissemination events

3. What are the aspects that you consider very important for you during the two year project, as a member of the target group?

You may tick more than one variant. *

Research

Making presentations, posters, charts a.s.o

Contributing to the process of making the final products

Learning about what habits the youngsters from the partner countries have regarding eating and doing sports

Learning what healthy living means

Participating in the presentations, workshops with the project results

Organising activities

Participating in the project campaigns

Enhancing my knowledge of the other cultures

Making my school, region and country be known

4. What are the aspects from the final products that you consider most relevant for learning about and applying a healthy lifestyle? *

Let's know what we eat and drink!- the presentation of questionnaire results and their interpretation

Traditional food versus international one

Weekly Healthy Diet for a European Youngster

Let's Do Sports!- the presentation of questionnaire results and their interpretation

Traditional Sports

5. What are the aspects from the final products that you consider most relevant for learning about constructive leisure time activities, environmental actions and Job Fair activities and applying these for real? *

Booklet about leisure time activities and its impact on a healthy lifestyle

Course book, with literary extracts and techniques to be used during the English classes

Environmental campaign

The Job Fair activities (workshops, simulated interviews and writing CVs)

5. What aspects from the campaigns, "A Healthy Eating Week" and 'A Day of Sports', do you consider that are important? *

Making people aware of the importance of healthy eating/drinking and doing sport

Bringing people together to act for a better lifestyle

The fact that our wellbeing is targeted

That fact that I learnt valuable things about healthy living

The fact that I felt like a member of a larger community

6. What aspects from the environmental campaign do you consider that are important? *

How to save energy

How consumption influences the job market and how it influences the environment

How daily habits influence the changes in the environment

How to perform job tasks in an environmental friendly way

The fact that I felt like a member of a larger community

7. Were the activities during the two years organized to achieve the project goals? *

Yes

Quite a lot

Slightly

No

8. Through my participation in these project activities, I improved: *

my respect to and understanding of other cultures

my knowledge of youngsters' leisure time habits

my knowledge of youngsters' reading habits

my knowledge of environmental protection habits

my communicative skills in English and mother tongue

my skills in using the computer (ICT skills)

my social skills

my motivation and enthusiasm

my self-confidence

both my teamwork and leader skills

9. To what extent did the project activities correspond to the youngsters' needs for a better personal and professional life? *

A great extent

Quite a lot

Slightly

Not at all

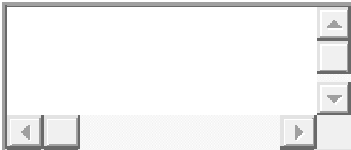

11. How do you intend to use in the future the experience you gained through the project activities? *

Your answer.

An empty text input field with a light gray border. On the right side, there are three vertically stacked buttons: a small upward-pointing triangle, a square, and a small downward-pointing triangle. On the bottom left, there are two square buttons with left-pointing arrows, and on the bottom right, there is a square button with a right-pointing arrow.

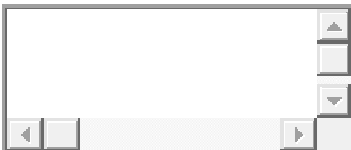

12. How can your school / community benefit from participating in this project? Explain. *

Your answer.

An empty text input field with a light gray border. On the right side, there are three vertically stacked buttons: a small upward-pointing triangle, a square, and a small downward-pointing triangle. On the bottom left, there are two square buttons with left-pointing arrows, and on the bottom right, there is a square button with a right-pointing arrow.

13. Will you take part, if possible, in the activities of another Erasmus+ project? Explain. *

Your answer.

10. To what extent did the project activities correspond to the youngsters' needs for a better personal and professional life?

499 de răspunsuri

11. How do you intend to use in the future the experience you gained through the project activities?

Some of the answers were:

Including the project's results in our daily classes; using the project as a benchmarking and the participating students' opinions as a motivation for others to take part.

How to do a cv and how to be and what to say in a job interview

Saving energy

Apply what I have learned.

Speak more about environmental problems

I want to begin to deal with my habits.

I intend to use in the future the experience gained through activities in saving water, recycling

In my work and social life

With all the activities carried out in the project, what I take to the future is mainly teamwork and the spirit of self- initiative

I will use it to improve my communication skills

In my job

I do more sports activities

to another project activities

for a better life

to improve my habits

discussing with others

In my daily life

It will help me a lot in my daily life

Live healthy, do sports and be more friendly with people around me.

I'm gonna give more attention to the environment and healthy life.

Help other people

To have a better life and use my social skills very well

For my future job

I was thinking about sharing my experience with others

I intend to use this experience to be a great leader and an amazing community helper

I will try to change

For my own life.

I intend to live a healthier lifestyle in the future

for my personal development

In work

Saving energy

A better lifestyle

In my daily life

In my classes and in my life

In my life during and after school

I intend to use during school and during my job life

At school and at my home

At home and at school

In school and in my family

In my career

I intend to use the experience for another project.

I intend to use my experience to help others

I think I can learn a lot from this experience and make me a responsible person in the future.

I want to use all the experience I have gained to guide others in a better way

I think this experience is very useful, because it is a way to develop, to mature, and for the future I think it is a good way to practice communicating with more people to share my experience

In classes and when I have a job

At school and at the company I will work

At school and at my future job

For my future lifestyle and career

Helping my friends and family make healthy choices and act to protect the environment

I will apply what I learnt

I think it will be useful in my future college life, especially the social skills that I improved

12. How can your school / community benefit from participating in this project? Explain.

Some of the answers were:

Expanding its students' life horizons, as well as their social and linguistic skills; changing students' life patterns towards a healthier, more environmental- friendly and with more employability skills.

This project teaches a lot to the students who participate

Saving energy and making other people aware to do better things

By helping the environment

Students gain more experience

Talk about the environment problems and know other countries.

Meet other cultures and other people

That project makes the school benefit because it informs the students

The great benefit from my school participating in this project is that it is recognized in other parts of the world and also have other opportunities.

In my opinion, these kinds of projects improve respect and appreciation of between the participating countries

Give the opportunity for other students to participate in the project Erasmus+

They are really good

My language skills are improved

By exchanging good practice between schools

participating in other Erasmus projects

sharing the results

with a good dissemination

organizing sport activities

with education lessons

sharing the results

showing posters with suggestions

organizing events
healthier students
we learned a lot
acting for a better lifestyle
promoting healthy lifestyle
they can save energy
teach us about pollution
continuing to organize conferences on healthy lifestyle
helping us to fight against environmental issues
Give the opportunity to students to learn more a
continuing to inform people
making more information campaigns
letting us do more sports
letting us discuss about healthy lifestyle
sharing the knowledges at school and with the local community
removing sweets from vending machines
turning off the heaters to save energy
paying more attention on environmental issues
saving water
disseminating the results
sharing the results

saving energy and water

I will take advantage of the knowledge I have gained from this work so that I can participate in informative events as much as I refer to the nutrition of the person and his physical integrity.

To be known

the program helped me to socialize in a group and of course to develop my IT skills

we participated in answering questionnaires from which we realized many things we did not know (leisure time habits, food habits, saving energy habits), we organized and participated in several activities (healthy eating week, save energy week), our classmates made new friends

Can learn new things

If they take all of them seriously, they can change lot of stuff

It can be made aware on improving its people's health habits and be made ecologically aware

Our school can become more recognizable in many countries, but it is even better and more interesting

It can give some valuable experiences.

By realizing things that we have never thought and learning new things

the school wins through the communication of teachers and pupils with other societies and cultures

Our participate in this project is a big point for our school!! In this way, better teacher will want to come in our school, so we will have better education!! Also, we will be famous!! Who doesn't like to be?

It's amazing

It will help a lot, because it increases motivation to learn and enhances self-confidence.

The community has been shown a good example of how a project can be dealt with. The locals were encouraged in taking part in environmental campaigns and dietary habits and sports activities.

The locals have become more environmentally conscious compared to the past situation

They know that there are some other people in other countries who are ready to do sth for the wellbeing of the world.

We showed our culture and our school to the other countries/ schools.

Getting to know other cultures and education systems

We earned so many friendships and respect. This is what matters.

We could be more social

Our school can become conscious

Our community can be aware of all the things we worked/analyzed on.

My school can benefit, since the students of my school participate, my school can improve

improve our knowledge about environmental issues

Their students are gonna have self- confidence and knowledge about different languages and countries

This will increase the respect to other cultures in the participating countries.

Better understanding of other cultures

Cultural exchange

By teaching students to communicate and exchange experience with foreign students, we improve the community

It will help develop its social and communication skills

I think that our community is now more aware about the environmental problems we have.

Yes. Because it showed the people that we, a simple group of kids, can change for the best, so they can too.

I believe that anyone that took part in this project had something to learn new about themselves, how to push their limits, how to live a healthier life. We as a community became more aware of the environmental problems so I strongly believe the fact that this project was beneficial for all of us.

Teaching skills

Making a better structured community

We have learned that it is important to adopt a healthy lifestyle. Also, the choice of a job is closely related to the activity of protecting the environment. In addition, young people can form a behavior through which they can maintain a better and more beautiful world, through reading, as an efficient way of spending their free time.

We leave in a different country and view a new mentality

The students gained more knowledge

We can guide them and taught them what we learned.

My school can be aware of other cultures

Foreign students visited our school, interacting with our pupils.

This project has many benefits not only for school but for us, people who participate and learn more things. These activities I've learnt help us to live a better life because of healthy occupations.

It broadens my abilities and skills.

The community will benefit from our knowledge and experience.

Yes, 'coz now the students from my school are more energetic

They will learn to be better and healthier and will better understand other cultures.

Yes, because my school is a European school and with the experience of this project, we, the students have good learning

Students benefit from learning more things

Yes because we can learn about a healthy life and about our career

My school benefits from participating in this project because we let our school be known in other countries.

benefits from talented children

In my opinion, the school benefits from activities that give children an easier understanding of healthy lives but also offers different experiences for each student!!

They can learn things

My school can benefit from participating in this project by learning the traditions of other cultures, but also by sharing experiences.

Teachers help students to know the benefits

It will raise awareness

It can benefit from a lot of points of view

it will improve my English skills

My school\community can benefit by being known

My school gets some recognition and my community learns that only together we can do something.

Yes, because youngsters nowadays need to learn how to live a healthier life and how to be friendlier to the environment as it shapes their future and how the Earth will develop further.

With the experience gained, I want to present to my friends the things that I have learned!

For our community

For our experience

We are now able to know each other better

To know how to communicate something we have in common

It will help our students to evolve

The benefits are multiple but from my point of view the main reason is communication and understanding the different methods of thinking and learning.

be known as a school with a lot of activities

They could benefit from participating by an improvement of English language and a new experience in a foreign country

They will have more experienced about international activity

The school can benefit by sending students to the project

I believe that our school and community do benefit from participating in this project, because people become more aware of their surroundings.

the school has different benefits such as knowing the interests of others

The school will have many benefits because the youngsters will have a lot of experience.

My school will have a lot of benefits because the children will gain experience.

They can support every student in understanding the importance of eating healthy and doing sports

The teens are very informed

The students can learn about a healthy lifestyle.

it will have benefits because young people will be more experienced in this field.

There will be a lot of benefits because the young ones are going to have an idea of what protecting themselves and the nature means.

They learn how to be healthy.

The young people learned what to do at a job interview

They learned to eat healthy food, they had more experience and learned a lot about the interviews.

The community will be very healthy

Participants will know how to eat healthy, to get a job and to recycle

They learned to eat healthy ,to recycle and be more confident about themselves

My school learned how important is to eat healthy and have a healthy life.

They have started eating more healthy and having a better lifestyle. Became more confident and influent

The experience I gained will be beneficial to my community

They have a better lifestyle

It will help them have a healthier life and be more confident about an interview for a job.

The youngsters learn how to have a healthy diet, how to recycle thus making the community a better place

People in my high-school have the chance to see sport and healthy living from a better perspective.

The young people learned to eat healthy and what to do at a job interview

Help society

We can benefit by progressing and upgrading our facilities

making my country be known

my communicative skills in English and mother tongue

About our social skills

By understanding

Explaining the youngsters 'habits and trying to understand them

Our school learned a lot about the environment and youngsters.

That is for our own knowledge.

I don't know, have a better reputation

I believe that my community can learn how to better protect the environment, because the young people taking part in the project will litter less and change their habits, thus causing people near them to change theirs too.

We would be a known school.

My school will be known by another country

We can learn about other culture

They can further improve other lives

Our school became European School because of these projects

More experience and popularity for our school.

Doing ecological activities

By teaching the students to eat healthy and do sports

This project can make our school more known and give us the opportunity to take part in other interesting activities.

Students can take part in interesting activities.

My school can benefit from participating in this Project..

The school can help the children to understand the importance of participation .

People can improve their lifestyle

I think that participating in this project has a benefit for my school is promotion high school history.

The students become more responsible and hardworking.

Make better a few aspects in our community

Our school can benefit from participating in these projects, giving us students the opportunity to learn about new cultures and improve our English.

My school can benefit because more people know about it and the students can be more social and develop more skills.

This project was a really good opportunity for all of us to evolve as human beings, we had the opportunity to search and discover crucial knowledge about serious topics (ex: environment; employment, etc). Connecting with other people and cultures is very crucial in our development, communication skills and understanding this world we live in better.

I think everyone even teachers can learn something new and useful in our life. (in my eyes the school is just a place but the teachers can make it beautiful and they can make us come with pleasure to it)

Schools make relationships with each other and better communication is made between the schools in the program

Schools have won between them and they have a better communication

Our school through participation in European projects becomes a European school.

Learn how to live an active healthy life and save some energy.

Yes, because my school is very good

The school benefits from our participation: a name, it became a European school, and more other social experience

our school will be more popular

It's very useful for us to know and be known

Our school is gonna benefit from participating in this project because we meet a lot of people, we communicate pretty more, and we become a national college.

My community can live a healthy life

We learn about their teaching way

We make new friends

Know people of other countries and their habits

We became better persons.

We have learnt a lot, things we don't have at classes

We are better students

We learned a lot of important things

With the things we learned we can be better citizens

I think I and my colleagues are better students

I learned a lot and I made new friends

Having better students

We become better students and better people

I am a better student

Our school can benefit by gaining knowledge.

My school benefit from participating in this project, it helps many students with their goals in life.

My school will benefit from participating in this project because the world will know where I am from and where I learn

The school can benefit as those who have been in the project share the experience with others

I think the school is very pleased with the participation of all the students, because they are involved giving proof of seriousness

I try to make everything possible in this project

School will have better students

I feel more prepared

I am a better student and a better person

I learned a lot of new things

They learn what people from Europe do

A healthy community whose members think of how to protect the environment

A great community who read and want to be healthier and more responsible for the environment

We live in a small community. Our involvement in this Project strengthened it with a breath of fresh air, offering to the high school students the opportunity to grow and discover other cultures.

13. Will you take part, if possible, in the activities of another Erasmus+ project? Explain.

Yes I would like

I'll try my best

Yes, I will.

Yes, because I loved this project and know new people and find new things

"Yes, because I really liked it.

I is a very good and unique experience for other countries, different cultures

Yes, I learn a lot

If I have other opportunities, I will certainly participate in another Erasmus + project, because besides being a very good social experience, it is a good opportunity to get to know other cultures.

I would love to because I enjoyed the project I took part in .

Yes, because it's a very good experience

Yes, I wish

yes, if possible

Of course I would like it a lot! As I improve my knowledge.

Of course I will again participate (I have made suitcases) 😊

For sure. I want to travel abroad and make new friends and know the cultures of other people

Of course , because I can improve more my communicative skills in English and experience, too.

Yes, because is a great opportunity to improve my life and my thoughts about it

Indeed I will. I wish to learn more about foreign countries and their cultures

Of course. It is an opportunity that is very important for many children to be able to learn new things

I wish I could

Yes, I will because we will acquire new friends and new experiences

Yes, ofc!! I think programs like Erasmus+ must have a "place" in our life and It would be a good idea to learn more about other countries, habits, people, etc. Also, it would be a chance to travel to another country!!

It's fantastic

Yes, because I want to improve my knowledge.

I will try to do my best. Because, it is really rewarding to collaborate with people from different countries.

I will. I feel it is worth doing something for the environment.

Yes. I think they are really useful.

Absolutely, yes. It's been the best experience I've ever had.

Yes, I would love to. Because I like these projects and they made me happy

Yes, because Erasmus+ projects help me to improve my English.

Yeah, I will because it is fun

Yes. It helped me to improve myself

Yes. I was, am and will be in the Erasmus projects. Yes. That's correct.

Because I love to get to know new places and new people, I would love to take part in another Erasmus project

Yes because I like it

Of course, I would gladly love to

I gladly will, because it was an amazing experience

Of course, I will try to be again a part of the Erasmus team, no matter what it will involve.

Yes. I intend to take part in future projects if I am able to participate.

Yes, I really wish to take part into another Erasmus+ project because it really helped me develop my social skills and it made me aware of environmental problems

Yes. It is great

Yes, I will participate because the activity within the projects has a real contribution to my professional and personal training, offering the opportunity to know the culture and way of life of other people, but also to practice and develop the language skills.

Yes, why not?

Yes, because I would like to have new experiences with people from other countries.

Yes, because it is good for everyone to know this kind of information

Of course, because I love it.

Yes, to learn more

I can't wait to participate again, finding the project an amazing thing

Yes. This is a chance to improve myself in a good way.

By all means

Yes, I will and I did and it would be a pleasure to do it again because i love learning new things.

Yes, because I learn a lot of things

Yes, because I want to know how life in another country is.

Yes, because is a great life experience

Yes, because I want to learn more

Yes, I will take part, if possible in the activities of another Erasmus+ project because it seems to be very interesting and I will learn a lot more.

Yes, because I want to learn the traditions of different cultures.

Of course, I would like to take part in an Erasmus Project. It would be my pleasure

Yes, because I want to meet new people and I make new friends.

I want to take part in another Erasmus project because I like making new friends

Yes, because they are really educational and a great opportunity to meet great people.

Yes, it would be great, I'd love to learn more about random topics

Yes , because I want to improve my English language

I would like to take part in order Erasmus project because I like communicating

Yes, I would love to take part in other projects in order to learn more about our environment and improve my social skills.

Yes. I think it is a good opportunity to discover new things.

I will, because I want to get involved in many projects.

Yes, because it's an important project.

If possible, I would be so happy to take part in another project.

I would really love to because I believe in this project.

Yes, I will gladly participate in these activities because it will help me take care of myself and what I eat and help me gain experience with jobs.

Of course! I would enjoy spending my time with such interesting activities.

Yes, because I think this will improve my social skills.

Yes, because this experience is a goal in our life

Yes, I'd like to learn more about different subjects.

Yes, because this project is quite interesting.

Sure, why not

Yes, I will take part in the activities of another Erasmus+ project if given the opportunity, because I want to meet new people from different cultures and help shape the future by taking part in different projects.

Yes, because I want to be better at social activities

I think I will take part in such activities only to gain experience in something I haven't done before because it's always good to learn new things.

Yes, I will because I want to have more experiences like this.

Yes, because I want to experience new situations and make new friends

Yes, because I want to travel in another countries

I think I will, because I would like to communicate with other persons, and work team is very important.

Yes, because I can learn something from this experience

Yes, because it is a unique experience

Yes, I can love being able to participate in another project, meeting new people and new traditions is very rewarding

I would like to take part in these activities because I enjoy it so much.

Yes, of course. I would love to have the opportunity to participate in this kind of project or activity again because I gained a lot from it.

Yes, because is very interesting to me

I intend to do that in the coming future.

Yes, because it gives benefits for our community!

Yes, I definitely would because I think it is very fulfilling as it is about us, young people.

Yes , it will be fun to do it again with my new friends

Yes, because I want help to the school

Definitely, as it is a boosting of skills

Of course, no other way to meet so many students from different culture who act towards a common goal

A great chance for people to cooperate

Yes, I'm looking forward. This project was one of my best experiences in my life, the friendship that I made, the landscape that I saw and the warmth of the people from abroad that I felt will be unforgettable.
