

## **SWOT ANALYSIS OF THE EVALUATION FOR THE 3<sup>rd</sup> TPM IN ASOPIA, GREECE**

According to the evaluation results of the 11 teachers who took part in the 3<sup>rd</sup> TPM in Asopia, Greece, all participants agreed that the discussions were well structured and organized while the content was complete and detailed. The cooperation among partners was satisfactory and possible misunderstandings and problems arisen were solved in a sensible way. Two of the participants, however, found that the time provided was not adequate but the objectives of the TPM3 were achieved.

All participants but one think that the organization of the 3<sup>rd</sup> TPM was excellent as well as the material and equipment available. As for the aspects to be improved, all participants found that everything went according to the plan. Nevertheless, one of the participants said that the dates of the TPM were not the most convenient ones while two asked for more time dedicated to work. All partners found that all main issues were handled during this meeting. Last but not least, to the question what they really enjoyed in this project most partners replied the good cooperation, the interesting topics and the results attained as well as the cultural exchanges realized during the meetings.
