The Evaluation of the Project Second Year 2018-2019

There were 435 answers. The questionnaire was conducted online. In this material that presents the evaluation answers that the participants gave, we first inserted the evaluation questionnaire that was turned into a google document and then the results themselves.

This evaluation assessed the activities, process and results of the second year of the project. The questionnaire was applied in each school from this partnership.

*Mandatory

1. Your country *

Romania

Italy

Greece

Portugal

Turkey

8.To what extent did the project activities correspond to the youngsters' needs for a better personal and professional life?

435 de răspunsuri

9. How do you intend to use in the future the experience you gained through the project activities?

Some of the answers were:

I will keep this project's goals alive by implementing them in my classes and in my work with youngsters.

I will use the experience I have gained to be a better leader

I will take care that, through my behavior, it contributes to the protection of the environment. I will adopt a healthy lifestyle. By personal example, I will encourage students and others with whom I interact to choose effective and healthy ways for themselves

I wanna use it in my personal life and in finding a nice job

In my future job

I intend to use it in my work, and I think I will be able to use it in life itself.

I want to tell it to others because the project touched a important topic

For my future career

Living a better life.

I will use them to better my knowledge and expend my understanding of others.

More activities

I intend to use this experience as a way of lifestyle.

To help other people who need help

I can use it in other different activities

I intend with the things to be learned in this wonderful project to develop my personal skills!

I will use my new skill in the daily tasks

To make my life easier

I will tell people what I have learned these years to help them see the benefits

Social skills

Future career

I intend with the things to be learned in this project to develop my personal skills!

social skills

I will use it a lot because it helps me in my future career

I use the experience in my future job.

I intend to use the experience that I've gained in my future career and to be a strong part of the community.

the experience helped my improve my English skills so I will use it in further encounters with people

I want to present to my friends what I have learned!

I present all I know to my friends

My communicative skills

I intend to use all I've learned through this project in order to express myself and my ideas regarding the environmental issues better in future projects.

English skills

I am now able to talk about a lot than I did before

To have a better future with the project participants

I intend to use this experience in order to live a better, healthier life.

I would try to communicate with more different people

FOR my future career

To have a better lifestyle

I intend to use the experience to be better at interviews.

The experience I gained is that now I have social skills.

Business

When I'm going to have a working place I'm going to use what I learned there

I intend to use the knowledge that I gathered from this experience

For a better life

In my future life

I am going to use my experience on a daily basis

I want to help my future career.

In my opinion, learning about saving energy and how important it is helping the environment as much as we can.

In a future better lifestyle

It will help me get more jobs or a career

For my mind

I will know more about environment

To further improve myself

I intend to use that experience in order to improve my knowledge as much as I can and my self-confidence, as well, so I can help other people.

to help my country

I want to help the society.

By bettering myself

With explanation

To improve myself

Giving it further

I would use it to improve my life

I want to take part in different activities to improve my skills

To use what I learnt in the project.

To use it when I need.

For having a better change to a good job

I will use it to improve my life

I will teach other students what I've learn during this project.

I intend to teach other students with the experience I've gained from these project activities.

The project will help me in the future because it will develop my personality but also the universe of knowledge

I intend to share with others.

I will help other kids to understand what importance the project activities have, and try to involve them in those activities.

This experience made me more responsible and a hard worker and I think that this will help me a lot

Helping other people.

I'll handle it in society

I was thinking about sharing my experience with others

Help the people participate in the projects

It will be easier for me to help a team/community as a member or as a leader

I intend to improve my social skills

Personal Development

I will use the experience in my life.

Help the world.

My future job

I intend to use the experience as a guide to how I should live and be healthy.

I intend to use this as a form of helping others

In the future I intend to use my experience on the project path to choose good service.

10. Will you take part, if possible, in the activities of another Erasmus+ project? Explain.
