

TAFILAH

- 1. Tafila Governorate .. Is one of the governorates of Jordan. It contains the most important and most beautiful reserve in the Middle East, which is the Dana Reserve. The region is located in the southern side of the Hashemite Kingdom of Jordan, at the confluence of Wadi Al-Playban and Wadi Al-Hasa. This geographical location, with its topographical character, includes the composition of the mountain, the plateau, the plain and the valley, which made it an attractive factor for human stability since ancient times.*

TOURIST ELEMENTS

- *God has loved Tafila for the beauty of nature, as it has distinguished archaeological, tourist and tourist sites whose impact is reflected on the cultural belt as well as the social side, as there are historical, archaeological and religious sites in the governorate:*
- *Examples of these places:*
- *I - Afra mineral baths:*
- *The bathrooms include a center for tourism services and medical clinics.*
- *for the purposes of medical tourism, and they have distinct therapeutic properties in treating infertility, atherosclerosis, anemia, rheumatism, and many chronic diseases.*

- *2- The Dana Biosphere Reserve is a great place for nature and country lovers. Thanks to its exceptional landscapes and the rural life it offers, this reserve is a haven for those seeking excitement, rest and recreation. The best time to visit Dana is in spring and autumn, when you can see the most beautiful scenery and the weather is good for walking. Note that in winter, several tracks are closed due to snowfall at the site. We note that the site provides the possibility of accommodation in local guest houses, Al Rummana camp, and Feynan Ecolodge. Traditional local meals can be sampled in Elmo's restaurants*
