

## **Chrysanthemum**

*She was not happy at school. The classmates laughed at her name every day.*

*It's good that her father was promoted and the family had to move to another town or city.*

*So Chrysanthemum just changed school, where there were many children, the school was bigger.*

*In the lessons they were concentrated and listened to the teachers' explanation. The children were active- they had a lot of activities after school – different clubs, labs, scouts, music school, art school, they played football, learnt languages, explored the neighbourhood, etc.*

*There were children with various names and nobody laughed at her name.*

**Chrysanthemum enjoyed going to school now.**

Paulina
