

“CHRYSANTHEMUM”

Chrysanthemum’s wish to go to school was indescribable! She thought she would learn many interesting things. She was so excited on the first day! Her mood had changed – she didn’t want to go to school. Of course, her family saw it and hoped that Chrysanthemum will make new friends and things will improve. (Parents had meetings with the class master!)

One day her mother suggested the girl to make a presentation about flowers, where she would give more information about chrysanthemums. So she did. The presentation was a success.

After the presentation Chrysanthemum handed sheets of paper with a picture of the flower and a word “CHRYSANTHEMUM”. She said, “My name is long, but you can make many words from it. Let’s try”.

Her classmates made words “then, anthem, ant, chant, aunt”. Chrysanthemum added the most important word – MUM. She invited the classmates to make words from their names. Everybody liked the activity.

Then the teacher said,” You’ve learnt about the flower, which is beautiful. Next, from the name Chrysanthemum you could make many nice words, important words. But you couldn’t make bad words, like “bullying”, which hurt. So, be nice to each other, don’t say rude words. **No bullying** in our class”.

Things will change after some time, hopefully.
