MAY 2016

OUR THIRD LTT

All partners with students met together for the third short-term learning/teaching/training activity from 8th May to 14th May 2016 at ISC in La Ville du Bois, France.

It was a great week for students, teachers and also families that met new friends from other countries, experienced new situations and shared opinions too. The theme was "Europe and Inclusion for all in European projects" so we worked about this topic with maps, drawings and pictures for the European man activity and Kamishibay story tales. We worked hard and we are satisfied for what we planned. The students enjoyed the different activities planned that is different workshops - cooking French macarons , sport , music and some games too - . Italian and Turkish students were hosted by some French families. It was a great example of "inclusion" too. There were also two cultural excursions : Paris and Mont Saint Michel. All together had a great time during the culture night : tasting different foods from the different countries , singing and dancing too.

A great week for everyone

Press conference

All the coordinators of DIRES greet the audience and talk about their organizations.
