

ERASMUS+ project DIRES : *Disability- Inclusive schools- Respect- Europe- Social dialogue*

Mobility in Italy. Hostschool : *Istituto Comprensivo J. Stella*: 6-12/03/2016

Topic : *DISABILITY in Europe*

Evaluation summary for parents . Thank you for participating !

Parents evaluation : Thank you to all friends who participated in the LTT mobility in Italy. It was a new and great experience for everyone – parents, children and all the community. It is the first time our organization is involved in a European project. We had a great opportunity to meet new friends for other countries and learn about their customs and culture. We had the opportunity to share ideas and opinions above all some families (five of them) that hosted four Turkish students and three French ones.

1)Did your daughter/son enjoyed the ERASMUS + DIRES meeting in the Italian partnerschool ? Explain :

All the students enjoyed this meeting because they met new friends and shared great moments with them – at school during the workshop activities, during the excursions, during the culture night and also when they spent the free time with them sightseeing our very little town. They wish they participated to each mobility if it was possible.

2)Different students were participating : Age (7-18), Situation (disabled/mainstream students), Origin (5 countries/6 schools), Languages (5). Did your daughter/son appreciate interacting with them ?

Before the LTT their kids were a little worried especially for the language, because they have been studying English for one, two or three years (depending the class they are attending) but they realized it was not a problem because they had a good opportunity to improve the language (one of the goal of the project). They say their kids are interacting now on Face Book group « DIRES » and WhatsApp too because they created a group for their own and interact daily.

3)What do you think your daughter/son get from this European experience ? Explain briefly :

Thanks to this experience their kids are :

more selfconfident

more respectful

more happy

more interested in studying

They also have :

new interests

new competences

new friends at school and in Europe

better contacts with teachers

4)Which obstacles/difficulties have you met before, during, after the mobility? And your daughter/son ? Explain

A bit worried before meeting new friends but no problems during and after the meeting. On the culture night they were all sad and crying because itwas the last night they spent all together.

5)Write 6 Keywords to summit the DIRES project and your impressions as parents :

Happiness

New culture and customs

Self confidence

Practising English

Europe

New friends

6)Do you think the DIRES project is important for the school? Can you write a short explanation ?

All the parents say it was a great opportunity their children had with this project . They had the possibilty to meet new friends of different ages, culture and situations. They met twelve SEN and they spent great moments with them and shared opinions and ideas too. They remember that in our country there are no special classes but only special teachers for SEN, so that they stay all together in common classes. These kinds of projects help not only students but also parents to have a new vision of the world and improve new skills.

All the parents are grateful to all European DIRES team.

Thank you for everything from the Italian team coordinated by A.F. Mungiello

The project has been funded with support from the European Commission
