“EUROPE”

Europe
Beautiful goddess
You gave the name
to our continent
Mother of ancient descendants
You have always accepted
different ethnic groups
and like an harbour
You were the homeland
for those people
who didn't have
a safe place where living
You were like a generous mother

With lots of different people
mixing races and languages
getting you into a cosmopolitan place
strengthening the basic values
of human dignity, liberty, fraternity
enlarging your arms
to everyone
and have a only community
where each one
can realize projects without discrimination
I am one of your son
I feel embraced from You
and I love and respect You
