

# DIRES NEWSLETTER ERASMUS+

October 2016

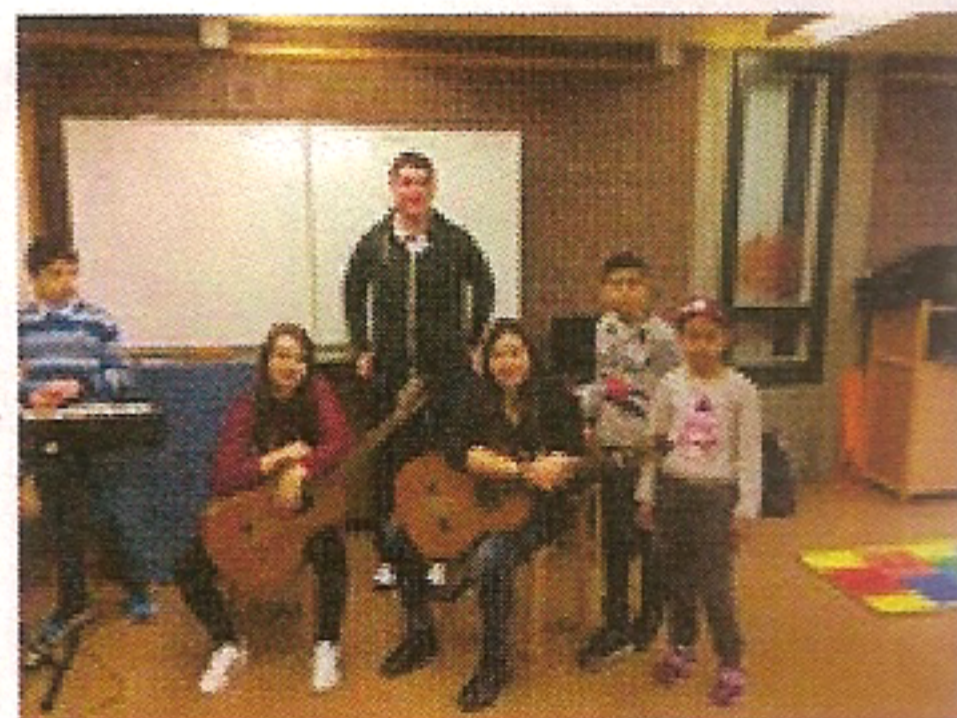

## OUR FOURTH LTT

All partners with students met together for the fourth short-term learning/teaching/training activity from 9th October to 15th October 2016 at Helen Keller Schule in Maulburg, Germany.

It was a great week for students, teachers and also families that met new friends from other countries, experienced new situations and shared opinions too. The theme was "RESPECT" so we worked about this topic with posters, performances, poems, songs. We worked hard and we are satisfied for what we planned. The students enjoyed the different activities planned that is different workshops - circus, football, drums, cooking, forestand much more - . It was really great because HKS is a special school and students could face another reality and live new experiences. There were also two cultural excursions : Luzern and the Black Forest . All together had a great time during the culture night : tasting different foods from the different countries , singing and dancing too.

## A great week for everyone
