SketchUp Workshop : Design a Keyring
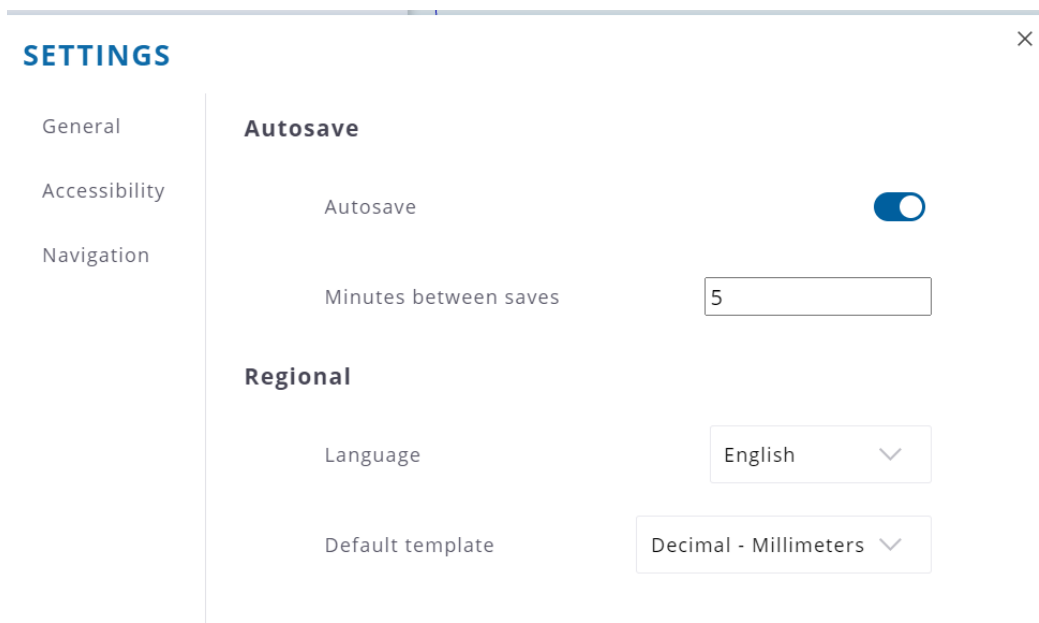

1. Go to:
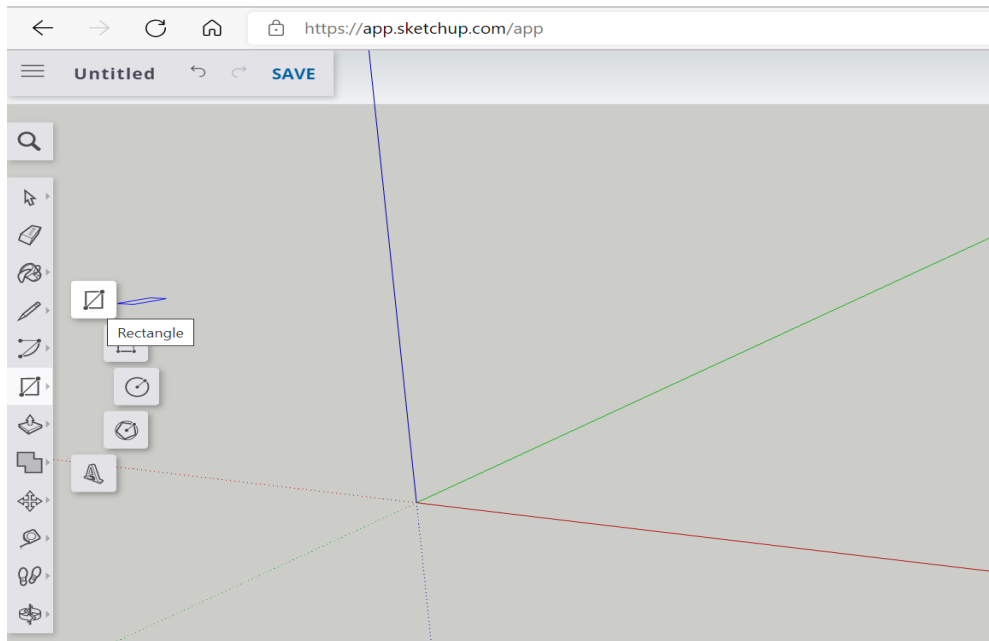

https://www.sketchup.com/products/sketchup-for-web

2. Click on **Start Modelling** , and enter with your google account

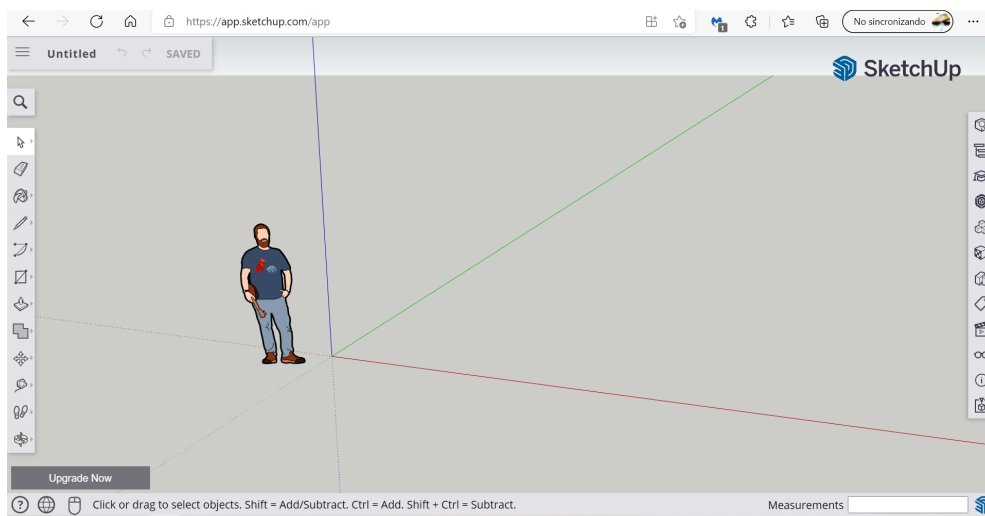

3. Adjust settings:

4. Select tool **Rectangle**, drag and type 60,20
5. Follow this steps:

Draw a semicircle with the tool *Two-point arc*. To do this, point to both ends of the arc and the 10 mm curve.

Draw a semicircle with the tool *Two-point arc*. To do this, point to both ends of the arc and the 10 mm curve.

Concentrically to the previous arc, draw a 4 mm circle with the tool *Circle*.

Remove the center line with the tool *Delete*.

Select the center circle and delete it with the tool *Delete*.

With the tool *Push|Throw* raises the figure 3 mm.

Draw a 3 mm equidistant inner line around the keychain. To do this, use the tool*Equidistance.*

Tool 3D Text:

CREATE 3D TEXT

INTEGRATED LEARNING
CHALLENGES 2019-2022

Font:
Permanent Marker   Regular

Height: 3 mm

☑ Text filled

☑ Text extrusion   2 mm

Cancel   OK

And finally raise the frame 2mm

Final Result:
