

Monica (teacher, Romania)

It's hard to find something I did not like. Actually, I liked all the activities, the atmosphere, the students' and teachers' involvement.

It was a very enriching ~~good~~ experience, so thank you for this great week in Germany.

Love,

Monica

• About this 5 days:

- The most interesting activity was the cooking contest. I hadn't cooked before so it was a mere experience for me.

- In my opinion, I think the season of this project fully succeeded. I spoke and changed many ideas with the ~~present~~ people from another countries.

- What I liked most?
- Meeting new people from different countries
- doing water analyses

I really enjoy being in Germany.  
First of all I would like to thank for  
your hospitality, patience and  
helpfulness.

What I like most was the way  
Students were getting to know each other,  
trying to live together and finally  
presenting together as well.

I liked the job shadowing, the attempt  
to make video "Water cycle", I mean  
as teachers, being very proud of ourselves.

Walking down the cave visiting the  
"Little Versailles" in Weilburg.

There were very good presentations - made  
by students ("with a little help from a friend")

The students' poster of "Water" was  
wonderful.

The day of cooking was great!

P.S. And <sup>we will</sup> not forget about the  
handsome German doctor.

Daniela Vitanova

In this week I, like that ~~make~~ <sup>made</sup> new friends, ~~Swim~~ <sup>Swim</sup>  
in pool, ~~going~~ <sup>went</sup> for the first time in mall and ~~went~~ <sup>went</sup>  
to a so difficult museum. I miss Giepen, and ~~my~~  
~~friends from~~ ~~roommates~~. I'd like to thank ~~my~~  
~~teachers for all~~ my roommates.

In

In this week, I cooked with other people from other countries,  
visited a difficult museum, swim in pool and played games.  
Went for the first time in mall, and new ~~a~~ very good boys  
I miss Giepen and my roommates. I believe I ~~will~~ <sup>will</sup> come  
again with my classmates in this programme: Yarina, marion  
Vosillig

Vassilis Thierry Freitas

I liked cooking, meeting other people from other countries and just visiting the center of Gießen was a good experience ~~to~~ even though it ~~wasn't~~ <sup>wasn't</sup> not the most beautiful city in the world.

Marialena Lagou

I liked physics and chemistry experiments and the film. <sup>(the visit to the cave also)</sup> Also, being with the members of our group, students included.

Dora Voulgari.

I liked mathematics ... of course!!!

But also cooking workshop and the experiments that students had had.

What did you like about your week in Gießen?  
Hallo,

I found all the exercises so good. I think all we have fun and great time together. My favorite place is the Mall. No, I'm just kidding. My favorite place is the Mathematik Museum. My friends and I play some games, ~~we~~ play with the bubbles and we ~~have~~ enjoyed. All the days we do sooo funny, good, and interesting things. I don't want to ~~write~~. We meet a lot of people from other countries. Some of them are more social and some of them not. But it doesn't matter thing ~~at all~~ all the kids love Gießen. The Hostel is a good, warm place and we have the greatest food. We listen music and the nights play games. The girls from Germany and the guys are so good and sweet. The school is clean, they have rules and it is an amazing place for the kids.

Anyway I have ~~so~~ so many memories from here. Ich finde die Schule und die Kindern und die Lehrer sehr gut! Ich möchte in der Gießen ~~komme~~ komme. Ich liebe Gießen und die Schule. It was an amazing week. Da zu Beginn was so ~~konfusero~~ ~~taşidil~~ Euxapitaw!

What did you like ~~about~~ about four week in Gießen?

I like all exercises in Gießen, but my favourite exercise is ~~the~~ the Tuesday and ~~Thursday~~ <sup>Thursday</sup> The Tuesday because we ~~can~~ see another places in Gießen. ~~the~~ the Thursday because we do a lots of things and we ~~had~~ had lot of free time than the another days. But I like the nights in the hostel because we play with the kids of the another countries. I hope one day I do all ~~things in Gießen~~ things again we do this week in ~~Gießen~~ Gießen. ♥

I liked meeting new people and listening   
doing the water analyses

I've wished for so long to take part in an Erasmus project and I've waited two years for this opportunity. So, I was extremely happy about this week and all the activities has been up to my expectations.

I was really curious about how I am gonna speak with other students and this is what I liked the most about this week. I loved all the activities we've made: the cooking, the painting, the swimming and all. I loved this week because it made me concentrate more than I usually do and I can say now that I appreciate things more than I've done before.

This week has been the most wonderful week of my life, even if I had visited almost all Europe before, with my parents.

This week teaches me how to talk to new people, in English, of course. I love talking in English, not because you have to, because you wanna do this, you really wanna talk to them.

I learned a lot of things and about water and I'll tell all my friends about them.

Thank you for this experience!

# My week in Germany

This week in Germany has been amazing. I enjoyed a lot all the activities but the most I like there was a visit of Weilburg castle. And on other hand, I enjoy the cooking class because I love cook. After, I really like the mathematikum museum because I think it is really interesting for teenagers.

Finally, I learned a lot this week I enjoyed a lot this week.

## TEACHERS

- The activity I liked most was the visit to Weilburg and the Mathematikum museum, but obviously these were the best because we were away from the school and routine.

- I also liked the activities when we used the Menubimeter, and Virtual water, water analysis and Finis ones.

- The thing I liked least was the accommodation, the hostel wasn't very comfortable and clean, but it's ok just for a few days.

- We have missed visiting the village we have been staying in and activities out of school.

---

All this week seems me very interesting because I learn a lot of different things about your country. I'd like to the visit to Weilburg. Was fantastic. Very nice place.

The most interesting activity for me was the cooking because we can see different ways to cook in each country.

Maybe I'd like another visit to other town or monument in the Gießen.

But in general was a very positive experience to me.

Salisbury

## My Week in Germany

---

This week has been amazing. I enjoyed a lot the Mathematikum museum, also the cooking "class".

The day we went to Weilburg was very beautiful, I liked a lot all the ancient sculptures and paintings from the Palace.

Both teachers "Maiken" and "Ian" were very friendly,

I think that the virtual water session was very interesting.

## My week in Germany

I liked this week because I had the opportunity of making friends from another countries and of knowing more about them. Also I learnt a lot about the characteristics and curiosities about water, and I discovered the concept of virtual water, which I didn't know. On the other hand, I found really interesting the places which we visited, personally I enjoyed the most the castle and the museum of Maths. Anyway, I didn't like that the German students weren't all with us so we couldn't meet like I wondered to.

I really liked the <sup>first</sup> game night, because I studied a lot for the other people. Also I really enjoyed myself in the cave, because that was an activity that I've never done before. ~~Another~~ Another enjoyable activity was in the museum which was really interesting ~~and~~ and something unexpected for me. After all I think that was a week, that I'll never forget.

I really like this 5 days. I ~~feel~~

really ~~love~~ live to cook with

other children and play games. I like the walk in Wellbury. But most I like is the people I met this nice week.

(After)

I will never forget the last 5 days, because when I go to Germany I was think it doesn't like, but I see so many people of different country, and I made new friendship. My favourite day was we have "game night", because this was the way to know each other. We have so many adventures together. I will never forget when I cross the door of the school. The new teacher, the new students, and my second home for a week. I have had bad and good days, but this is a normal think for one teenage girl. I love this week and I never forget, because here I ~~met~~ met my second brothers, and sisters.

I will never forget this one week in Germany. I met a lot of people and I'm really happy for that. I really like the museum that we attended ~~yesterday~~ yesterday. I am in love ~~with~~<sup>in</sup> the nature here. I liked the tour in the city Weilburg. I made new friends here and I'm happy for that I was in Germany.

My week in Germany

This week in Germany was fantastic. My favourite places that I visited are the ~~met~~ museum and the wellburg castle. but if I have to chose one I prefer the caste because I like the old things and I think that it was amazing.
