FOR A JOB?

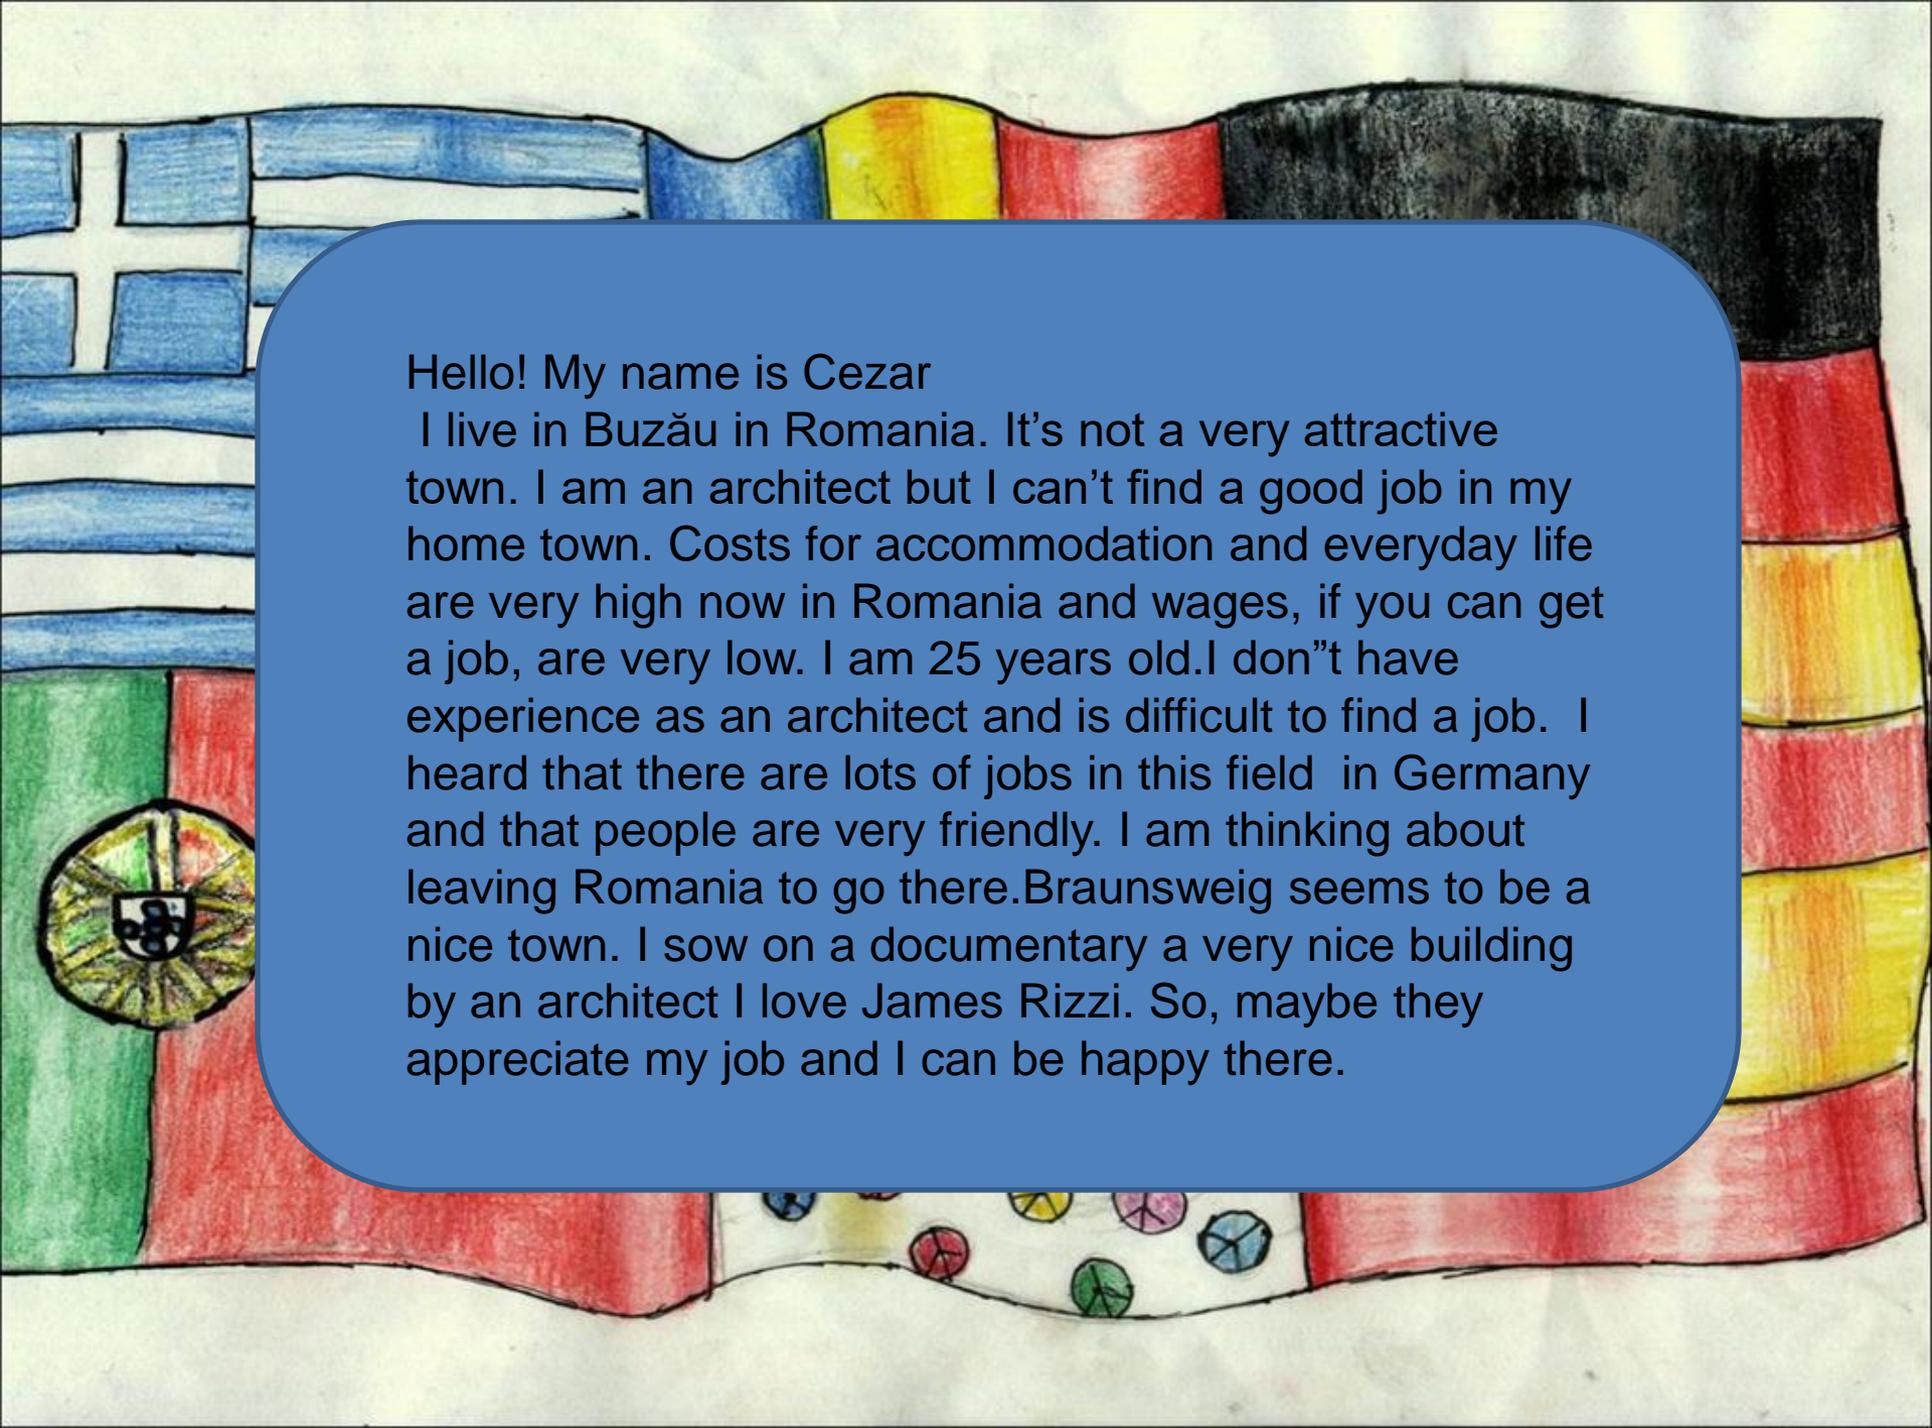

Hello! My name is Cezar

I live in Buzău in Romania. It's not a very attractive town. I am an architect but I can't find a good job in my home town. Costs for accommodation and everyday life are very high now in Romania and wages, if you can get a job, are very low. I am 25 years old. I don't have experience as an architect and it is difficult to find a job. I heard that there are lots of jobs in this field in Germany and that people are very friendly. I am thinking about leaving Romania to go there. Braunschweig seems to be a nice town. I saw on a documentary a very nice building by an architect I love James Rizzi. So, maybe they appreciate my job and I can be happy there.

YOUR ROOTS?

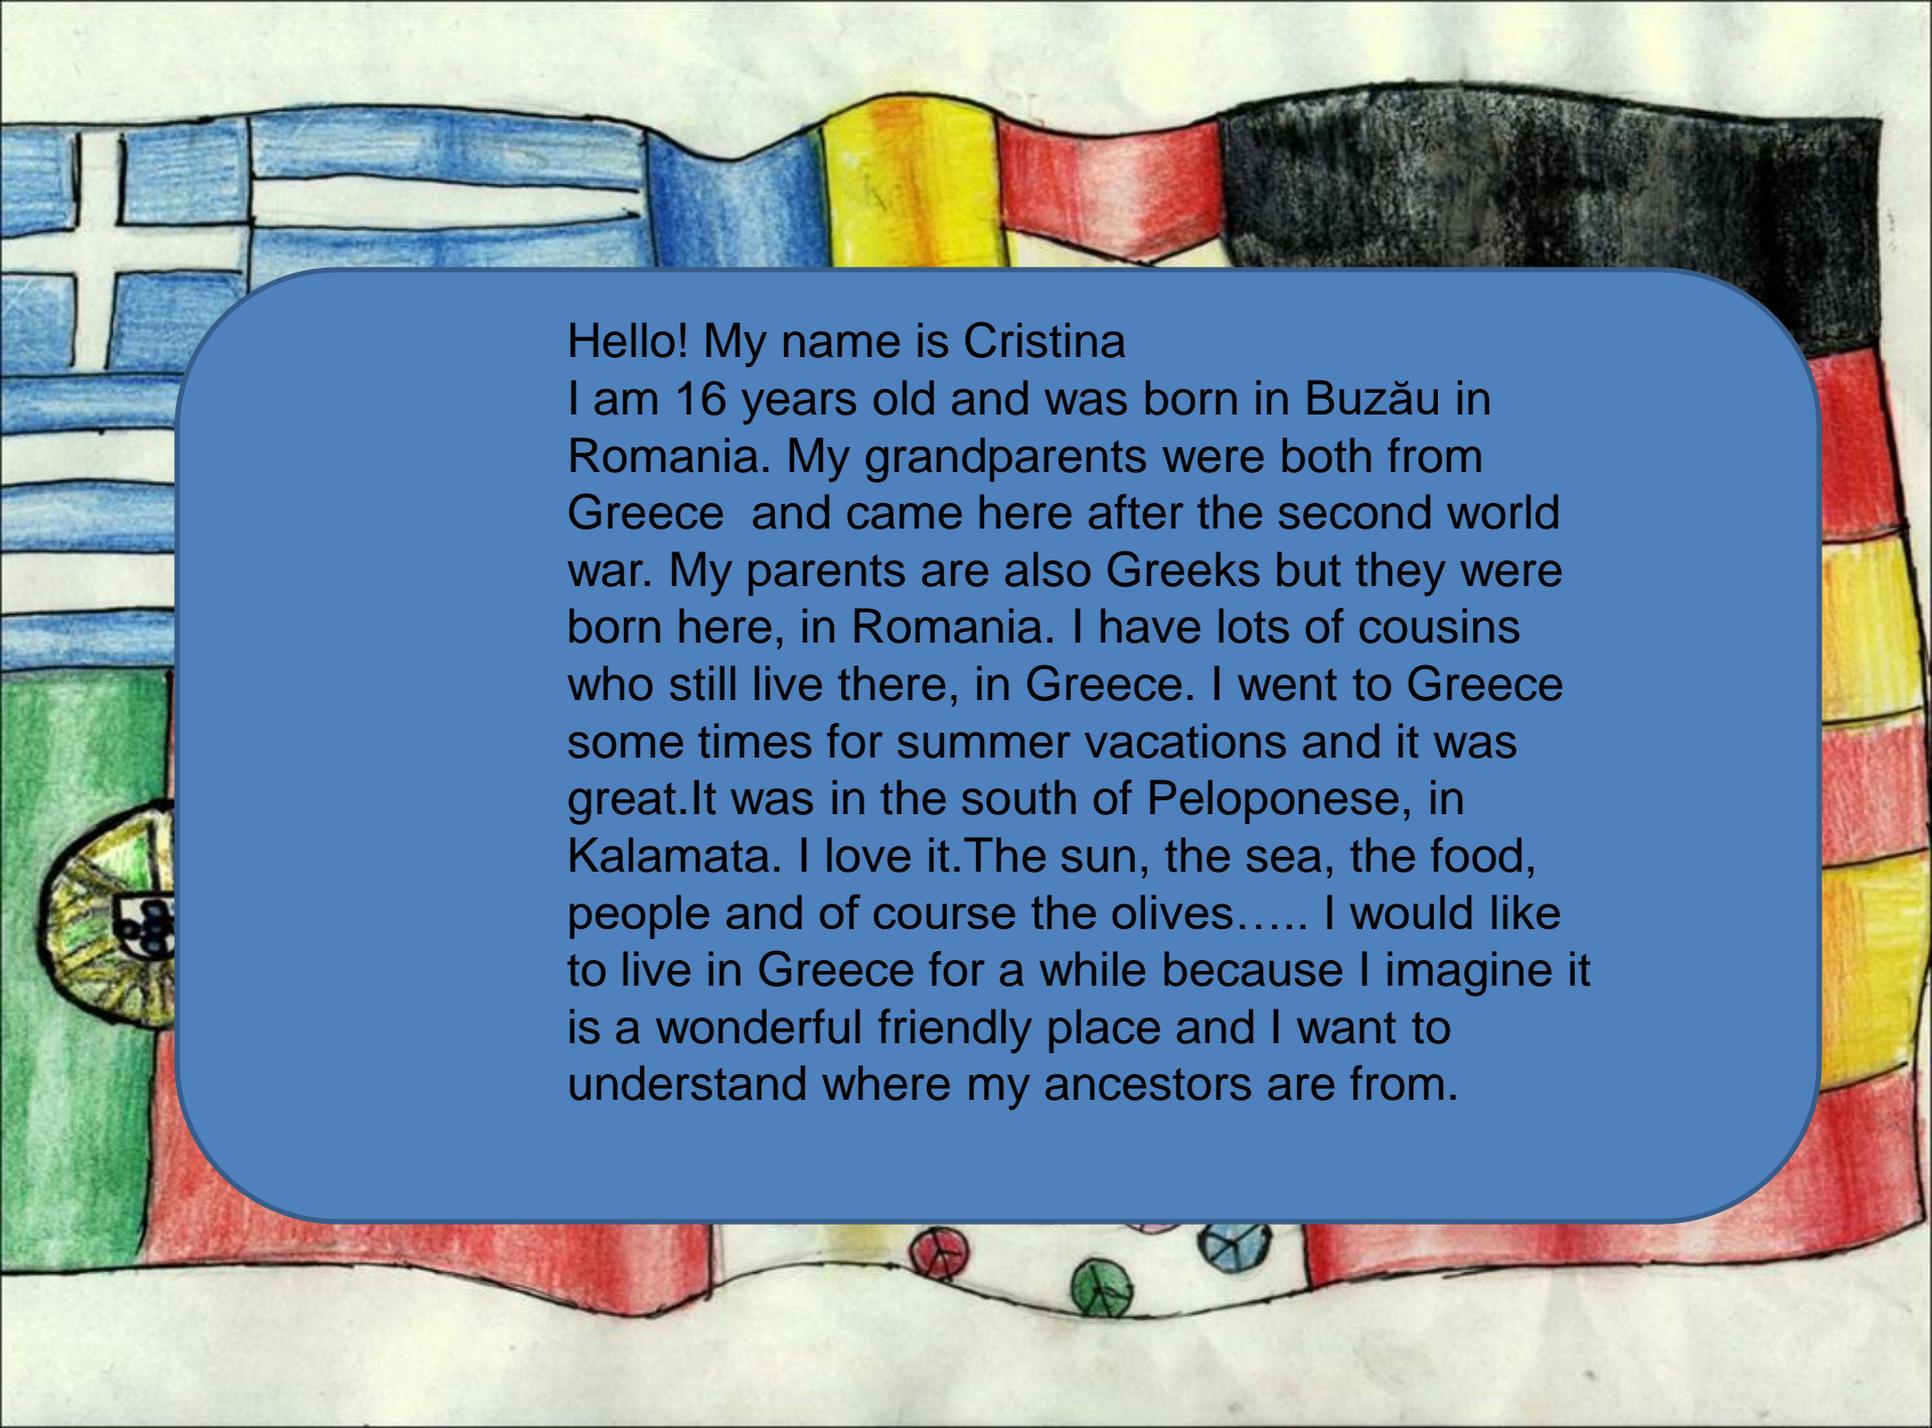

Hello! My name is Cristina
I am 16 years old and was born in Buzău in Romania. My grandparents were both from Greece and came here after the second world war. My parents are also Greeks but they were born here, in Romania. I have lots of cousins who still live there, in Greece. I went to Greece some times for summer vacations and it was great. It was in the south of Peloponese, in Kalamata. I love it. The sun, the sea, the food, people and of course the olives..... I would like to live in Greece for a while because I imagine it is a wonderful friendly place and I want to understand where my ancestors are from.

Hello! My name is Andreea

I am from Buzău in Romania. I want to be a doctor. I have heard that there are good medical courses in Germany and that I might be able to get sponsorship from the German Government to study there. I also heard that there is lots of work available in Germany which would help me to pay for food and rent while I am away. Also I know that doctors are very well payed in Germany. I would like to make a future there but I am a bit worried about how people in Germany will treat me. For sure I would choose to live in Goslar. I was in a trip there and I fall in love with that town. Simply beautiful.

Hello! My name is Bianca

I am 16 and I'm from Buzău, Romania. My mother and my father live for 10 years now in Spain. They have good jobs and a nice house. They stay in Pontevedra. A beautiful city. It is special because cars are not allowed downtown. But it is so far away!

I stay here only with my grandmother and my little sister which is 12. We like to stay with grandma, she is good to us but we miss a lot our parents. I would like to go to stay with them not only in holidays but all year round. I would miss my colleagues and friends but I would have my parents with me.

Hello! My name is Petronela

I live in Buzau, Romania. I like a lot a quiet life, small country in the middle of nowhere. I am fed up with politics, corruption, traffic jam, loud people, silly talkshows. I would like to go on an island in the middle of the ocean. I heard Terceira is a nice one. Have everything I love. Nature, quiet, some nice traditions, warmhearted people. And a lot of cats. I love the cats. And cows also, lots of cows. So yes, Terceira can be a nice option for me.
