There has to be one list with all the names and each country will get an individual list with teachers and students of the respective country and an additional list with the representatives of all countries (teachers and students)
- Suggestion for the future: in order to increase participation in a logo contest, make sure that all students participate in such an election, one teacher from each country should send a message to the organizer of the logo contest so he/she knows that all students have voted
- Deadline for student and teachers questionnaires: December 1st (make sure to email Catalina ones everyone has completed the task)
- Plans for activities until 23-27th April (Greece): (22-28 for the invitations and certificates: be careful with invitation dates as some national agencies require exact dates!)

 - Upload videos and slide shows of pictures to eTwinning (each country uploads their own files) (non-public)
 - Louis will upload the picture of the map created in Terceira
 - The logo that was elected during the meeting has been uploaded to our google drive
 - Each country should also upload any press releases
 - Catalina uploaded a document to the drive that can be used as a checklist for ideas on dissemination by each school
 - For the meeting in Greece:
 - Prepare a presentation on migration in the present (after 1990) in your country
 - Collect items for an exhibition: newspaper clips, books etc. and find a way to present them
- Each country will conduct research on online comments (social media entries) on migration (xenophobic vs empathic comments) and prepare a presentation
- In each national group, there has to be a discussion about the responsibility and accountability of social networks (generalized conclusions based on our topic) and combine the results of their discussion in a written document which the students should use in the international group discussion in Greece

- Catalina reminded us to collect all students' activities conducted at each TTLA for the handbook that we need to assemble at the end of the project

 - laying CLIL (content language integrated learning)
- The Migration song played in Portugal should be used during all the following TTLAs as the ERASMUS OMIT tune (+ choreography)
