The Mission of this Leaflet

The mission of this leaflet is to disseminate our Erasmus+ Project giving basic rules when using the social networks to be given out to families, other schools and local community.

1. Families. The pupils will be responsible for taking this leaflet to their families to discuss it.

2. Other Schools. Compartiremos nuestro folleto con todas las asociaciones de nuestro proyecto.

3. Local community. Utilizaremos nuestros canales de difusión para llegar a nuestra comunidad: Webs, blogs y eTwinning Live.

Our Project

Cybersecurity Schools is an Erasmus+ KA229 project whose main objective is to exchange good practices between six countries in the areas of security and privacy of our pupils in the Internet.

Countries

HUNGARY
ITALY
POLAND
ROMANIA
SPAIN
TURKEY

Social Media Advice

Password

Use a strong password. The longer it is, the more secure it will be.
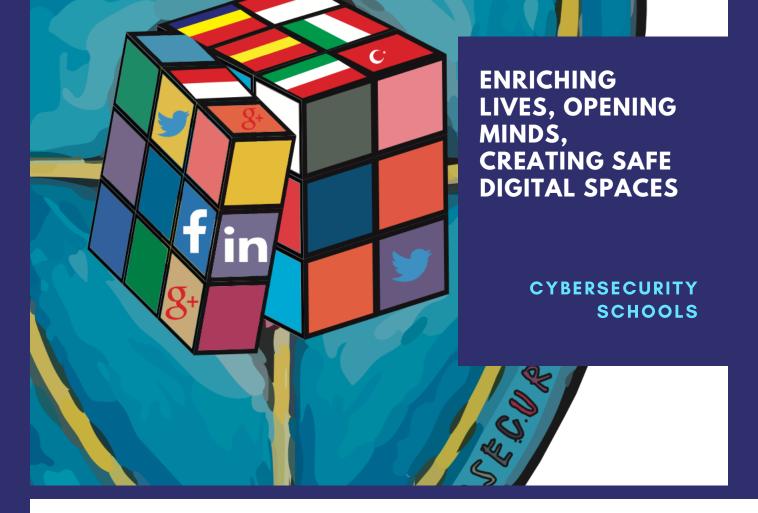

Security answers

Set up your security answers. This option is available for most social media sites.

Requests

Be selective with friend requests. If you don't know the person, don't accept their request. It could be a fake account.

Social Media Apps

If you have social media apps on your phone. be sure to password protect your device.

More tips

- Click links with caution. Social media accounts are regularly hacked. Look out for language or content that does not sound like something your friend would post.
- Remember to log off when you are done.

- Be careful about what you share. Don't reveal sensitive personal information such as home address, financial information or phone number. The more you post the easier it is to have your identity stolen.
- Protect your computer by installing antivirus software to safeguard.
- Become familiar with the privacy policies of the social media channels you use.
