How Covid-19 has changed the way of making tourism

We will observe how tourism has changed in Italy in the last few years as a consequence of the pandemic and we will work on ideas and solutions for the development of new forms of tourism by working in groups supported by experts in the field of tourism.

Your task for Italy:

How Covid-19 has changed the way of making tourism in your town/city, region or country.

1. Please send a **two-minutes video** about the way Covid-19 has changed the way of making tourism in your town/city, region or country. Take into consideration some aspects like the home economy (the incoming and outgoing tourism drop), new forms of tourism (virtual tours of the most important sights and museums). Focus on the economic impact Covid-19 has had on the tourist industry and how people have changed their way of travelling.

We remind you that the Video format has to be **MP4** and that it has to include:

- 1) A title with the official Erasmus+ logo
- 2) audio or written commentary
- 3) names of the people contributing

NB: Do not use anything but authentic material (that is videos/photos made by you in order to avoid any copyright!!)

Deadline date 26/03/22
