

DAY 6: HIKING IN LAEVA'S LAKE

In the morning all the teams went to Laeva's lake for hiking. We had lunch at the Ice Age Center and then we went to the school L hte  hisg mnaasium to watch the final video by the Estonian students. Later, we had free time: we went to the mall and to have dinner... meat with potatoes, of course! ;)

This is the Video about the mobility recorded by the Estonian students:
