

Erasmus+ in Finland

Monday:

We had a meet and greet with the headmistress at the school, then we got a tour of the school and had a lesson in Finnish. After the lunch in the canteen, we got in our groups and started brainstorming. Brainstorming went really well in my group.

In the evening we went to the levo hunting lodge.

Tuesday:

We went to Tampere and got a presentation about the Tampere app. The Project's name is "stardust" and they are working on a better, CO2 friendlier Tampere.

After the presentation we had to brainstorm (for new ideas) again.

We had lunch at a classic American Diner and then got a tour at Hiedanranta.

Wednesday:

We had a lot of time to work on our presentations. And at 14 o'clock, we went to Pukstaavi and had a tour there.

Thursday:

My group had to finish our presentation, because we couldn't finish it on Wednesday. After a short coffee break the groups had to do their presentations.

The winner was team number 3, my team.
