

IN WHAT WAY DOES THE
EUROPAVIERTEL SUPPORT
AND PROMOTE
SUSTAINABILITY?

EUROPAVIERTEL

INTRODUCTION

- general information
- ↳ mobility, sustainability and building structure
- was a former freight yard until 1980
- today it`s used for catering, finance and living

SUMMARY

- modern edifices (way more energy-saving/climate-neutral) – nearly none grassy area (despite of scattered trees at Mailänder Platz)
- little living area across $200.000m^2$ a lot of economical and financial concerns „Turm am Mailänder Platz“ treats sustainability due to facade greening – conflict
- mobility and primarily e-bikes/e-cars
