

Erasmus Finland Learning Diary

February, 17th to February, 20th , 2020

Written by Simeon Hemminger / Germany

Erasmus Finland Day 1 (February, 17th)

First, we were introduced to the schedule of the whole week. Then, some finish students showed us their school. After a break with snacks, tea and coffee we've done a little quiz. At next, we got the chance to learn some Finish. After the lunch and the video presentations, the groups met and thought about what to do for the project the next few days. The evening we spent in a local hunting lodge and had great fun, especially when the different countries sang different songs in their language.

Erasmus Finland Day 2 (February, 18th)

We went with the bus to a city called Tampere.

After a presentation of the goals of the city regarding the CO2 emissions, we got time to speak about our own ideas and how to handle our video.

Erasmus Finland Day 3 (February, 19th)

On this day, we got much time to work on the project in our groups. After lunch in the school canteen, the working session continued.

Erasmus Finland Day 4 (February, 20th)

Today, we finished the project work. First, we got some more time to work on the video. After a coffee break, the three groups presented their different ideas. Then we had lunch at the school canteen. After this, the two foto/video documentation groups got time to finish their work.
