

MONDAY 13/12/21

On Monday, December 13, we started with the official welcome to all the countries. Then each school presented its preliminary work.

After that we went to Burjassot Town Hall where we were received by the mayor and councilors. In the afternoon we had a video conference with some AINIA's representatives and we did groups of work. Finally we took part in a very funny drumline organized by the Godella City Hall!
