

DAY 4: WORK AT THE UNIVERSITY AND VISIT TO SCIENCE MUSEUM

Today we went to Tartu's University and we continued working on our project. We created ideas and presented final products' **prototypes**. We learned new interesting things.

At midday we ate at the university, and later we visited the AAHHA (Science Museum) and we all had a lot of fun.

In the evening some students went to a typical Estonian SPA and others went for a walk. It was a great evening!!
