Meet and greet in the school, evening at a hunting lodge
Tampere is a growing city
Teamwork goes well :D

Went to Tampere, got a presentation about the Tampere app and visit the city
The Stardust Project is working on a better CO2 friendlier Tampere
We took some videos and spoke about our video in general

Wednesday 19.02.2020

Worked on our video at the school

We didn't learn anything about it. I just improve the skill to make videos.

We worked on the video and have much fun. My task was to create the video timeline, Subtitle and the voiceover.

Thursday 20.02.2020

We quite finished our video, made the voiceover and got the presentations from the other groups

I learned many things from the presentations, like the effect of competition and discounts. Our teamwork was good and it was efficient
