The future of
mobility ?

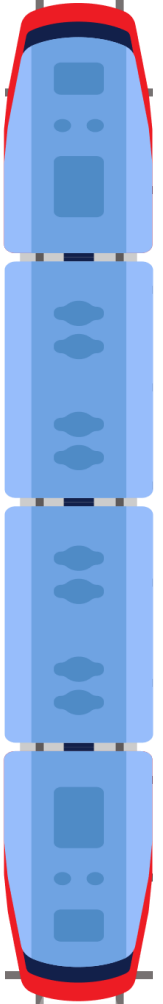

SMART MOVEMENT

-rising focus on
cycling

-more bike lanes

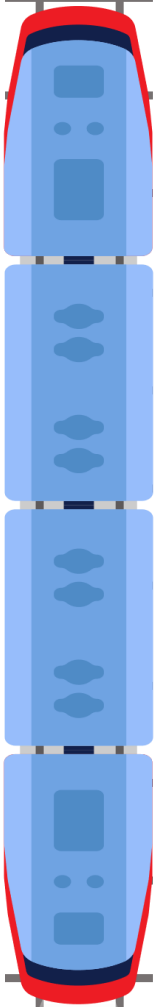

-secure pounds

FLEXIBILITY

-improved
underground system

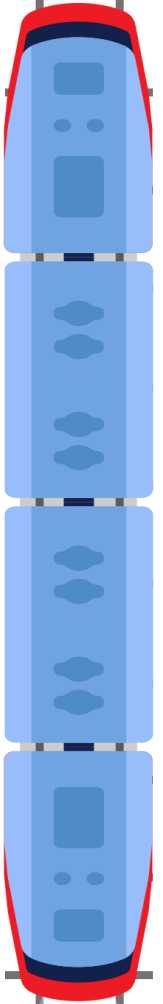

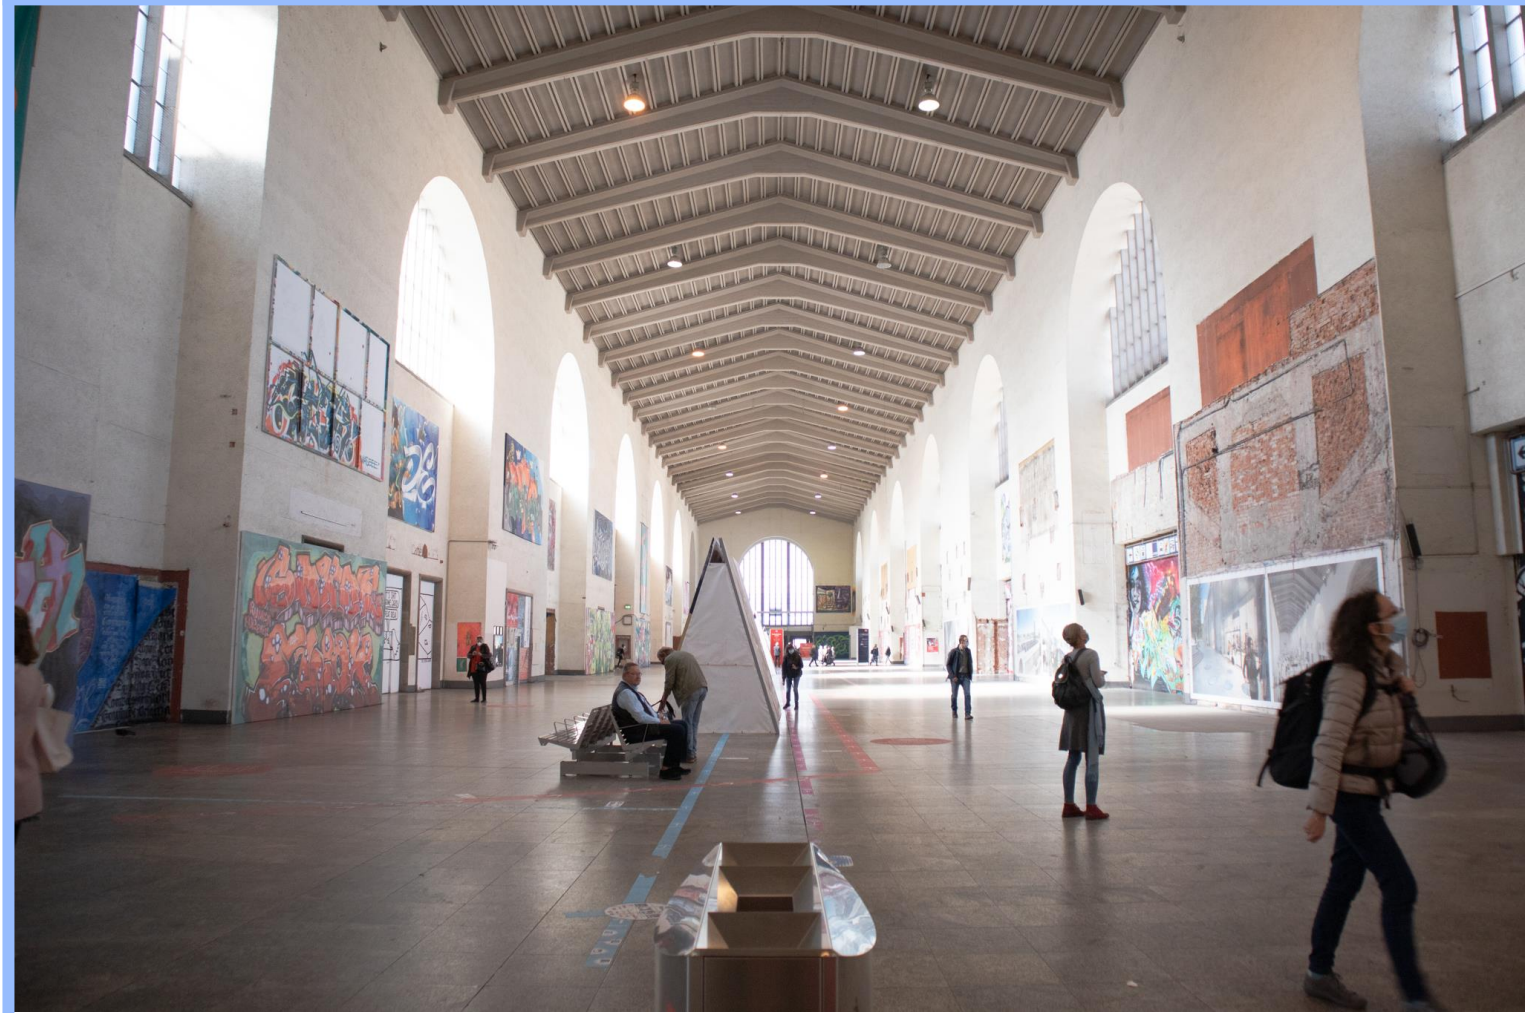

-modern architecture
leading to more
comfort

DIFFICULT CONDITIONS

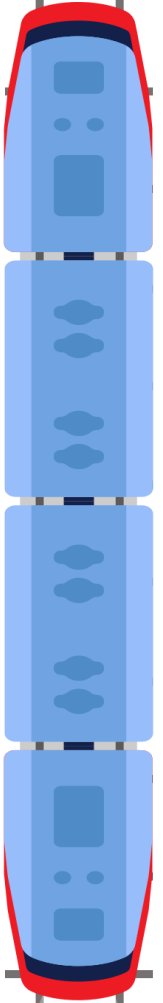

-massive and
outdated building

-long paths

TIME IS KEY

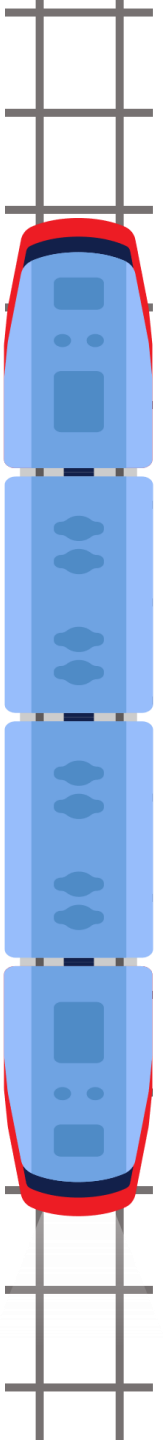

- preventing loss of time
- short ways to platforms
- avoid missing the connection train
- through station instead of railhead

TRAVEL FOR EVERYONE

-orientation in every case

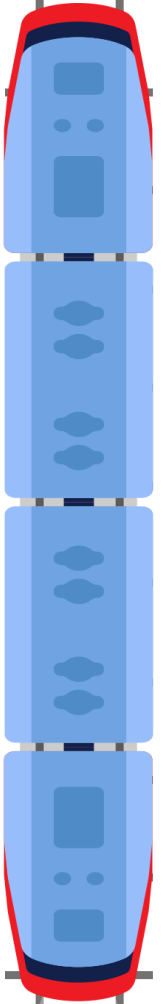

-guiding lines

CONNECTING EUROPE

-high-speed trains

-alternative for
flying

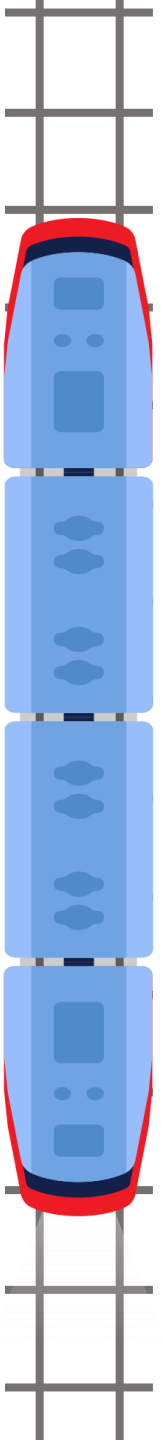

CONNECTING RURAL VILLAGES

-decentralisation

-supporting
commuters

-high-speed rail
line

CHANCES

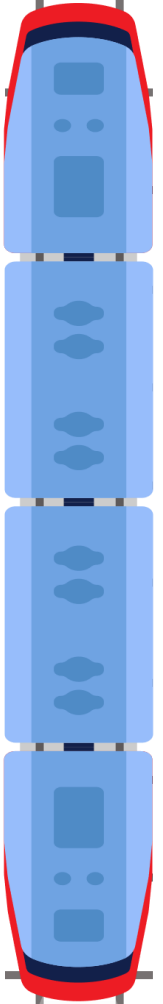

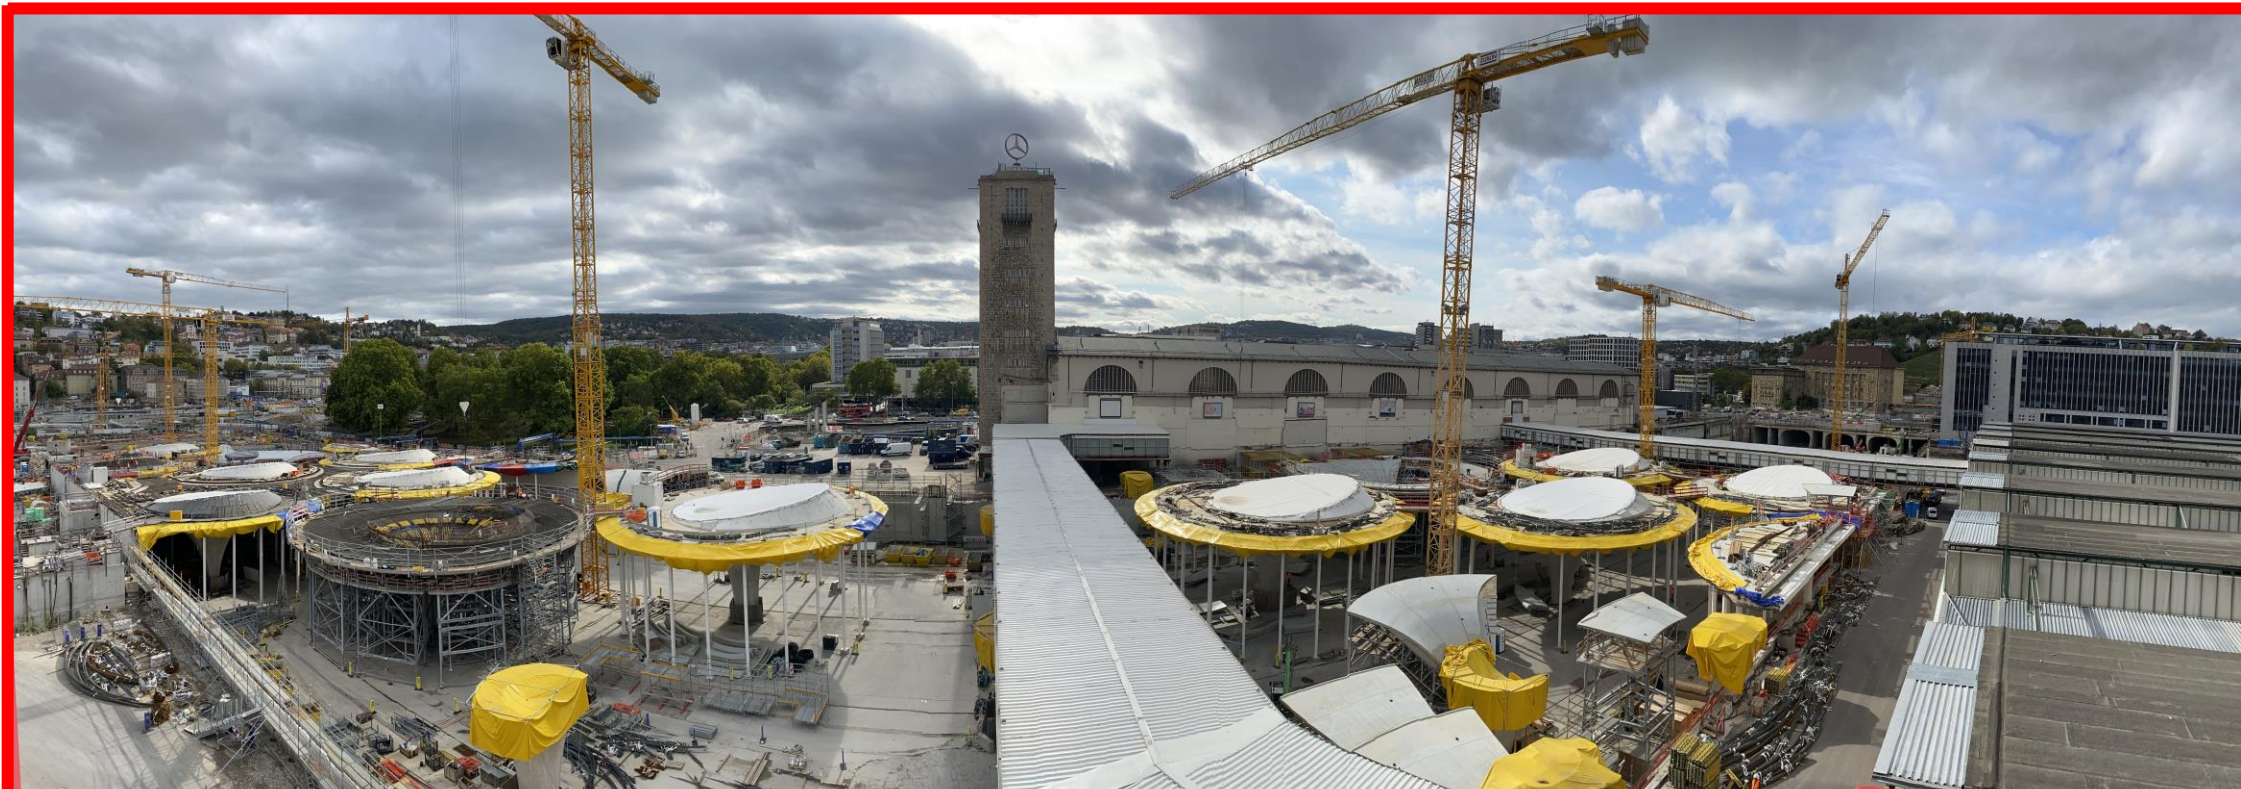

-more green spaces

-mobility hub in
europe

FINAL STOP: REALITY

big construction site, costs are exploding, many challenges
