- 2) And please have them introduce themselves to all the other participants of the project on the same Padlet we used for the visit to Germany:

- 3) Then the preliminary task for our project meeting in Finland (see PDF “Preliminary task for Finland 2020”).

- 4) And finally, please ask your students to get the [Tampere.Finland](#) application on Google Play or App Store on their smart phones. This is the application they’ll be developing further in teams in Finland.

In addition, if they have laptops they could bring over, please encourage them to do so! We’ve got some extra laptops with Ubuntu (Linux) we use for extra laptops in e-exams (for students who have broken laptops etc.), but they are pretty old and thus e.g. battery life may be severely limited.

See you soon!

Best, Antti
