

Presentation of Nova Academy

Nova Academy in Simrishamn Sweden

Nova Academy is a general Upper Secondary School located in downtown Simrishamn on the very southern tip of Sweden. This is our main building with our glass entrance. In this building we normally teach Digital Design, and Social Science and all languages such as Swedish, English, German, Italian, French and Spanish. The main library is also located in one of the wings.

The Maritime Center

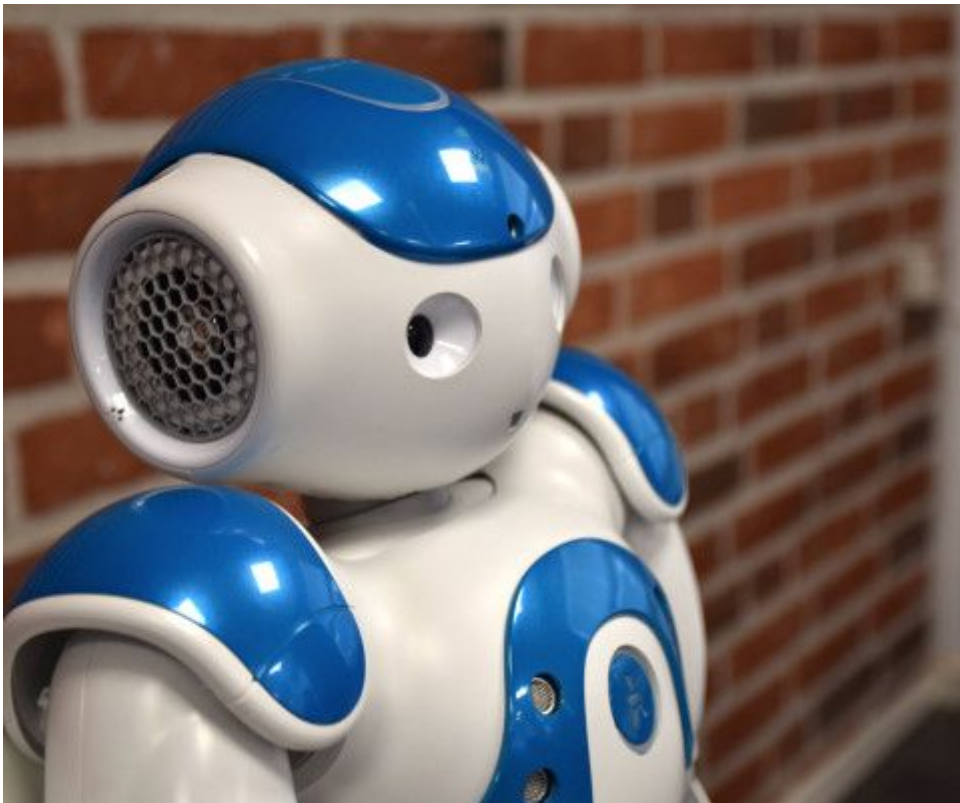

Located very close to the harbour is the Maritime Center. This is our labs for Physics, Chemistry and Biology. We also have a big Aula here. In the left wing the Tourist information center is located as well.

Performing Arts

Performing Arts is all about Musical, Singing, Dancing and playing Instruments. We have several different buildings for this. Especially for Dance, Theatre and classical instruments.

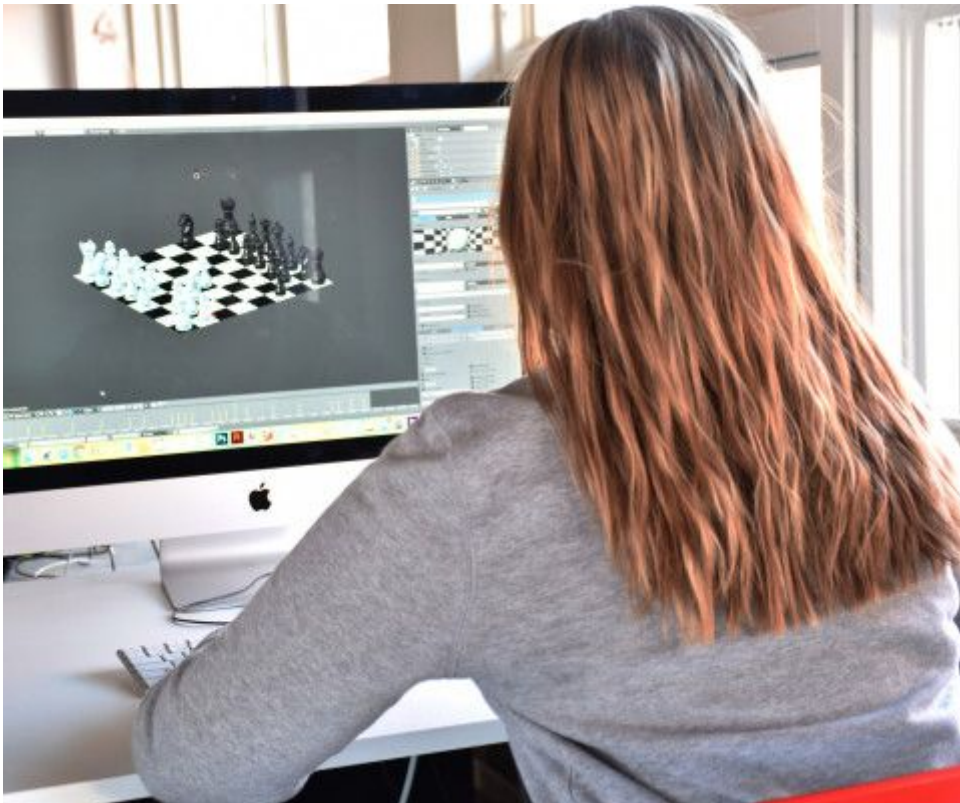

Digital Design

In Digital Design we teach the students classic media such as journalism, Photography, Movie Making, Desktop Publishing and Radio but also modern media such as Robotics, Webdesign, and Multimedia.

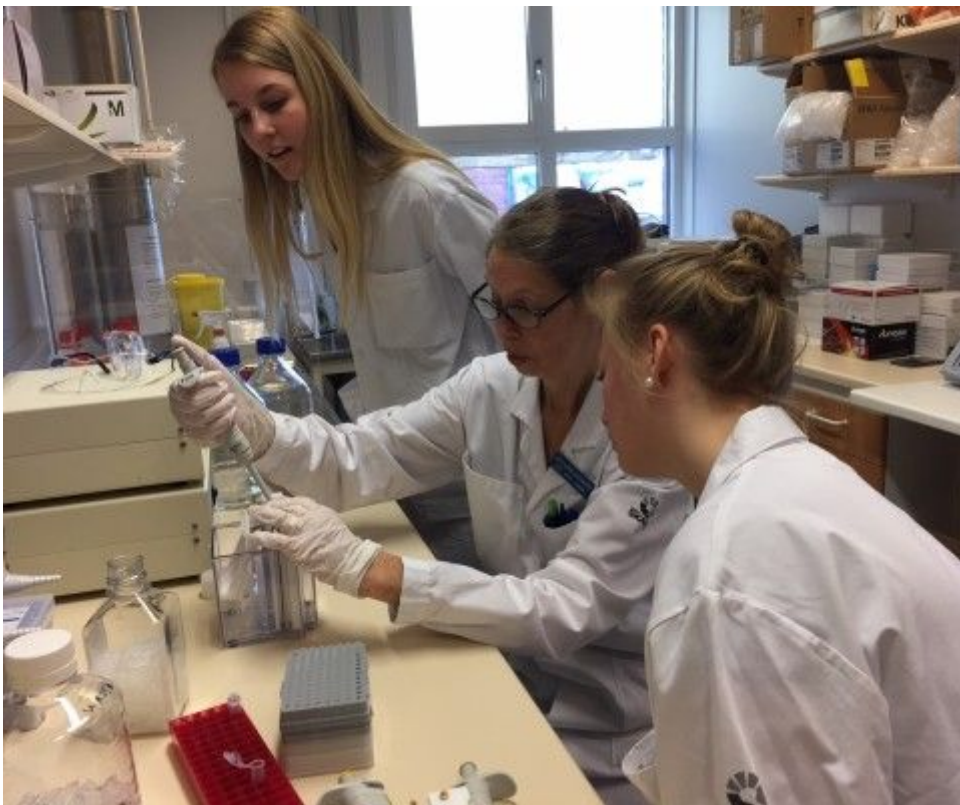

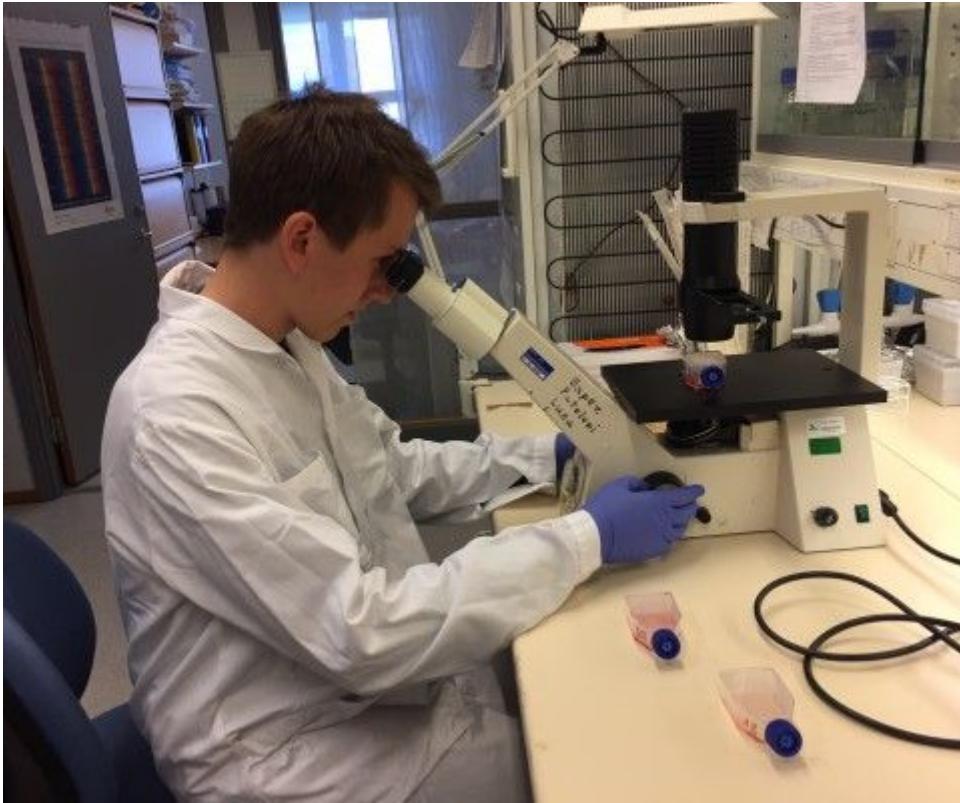

Our students learn how to handle all sorts of equipment From Camera basics to advanced gyroscoping devices. Even if the students are supposed to study further, hands on experiences are important in this trade.

We also Teach a lot of 3d modelling and Animation. The students can design a product of their own and print it in 3d but they can also make simulations and animations for CGI in movies.

Science

We offer students advanced math and a lot of experiences in our Labs. We have a spectacular view from the labs. On one side the harbour and on a clear day you can see the Danish Island BOrnholm in the distance.

Social Science

Social Science or Behavior as we call it focuses on Philosophy and social studies. We dig deep into the processes of the brain and we even have a hypnotist coming from time to time.

General information

Nova Academy is a small unit with a big heart. We have approx. 200 students and the results are speaking for themselves. A good student to teacher ration and modern well equipped classrooms together with a great staff is the concept of our success.
