

Activities in Palade Põhikool till 22.10.2021

Slow down education in the nature
Erasmus+ KA229 project

Intruducing activities

Introduction of
the project for
teachers and
parents in
December 2020

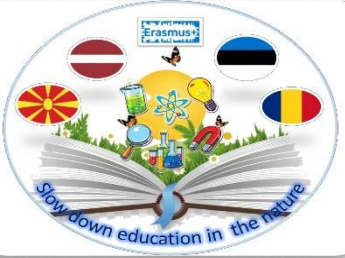

The screenshot shows a presentation slide with a table of contents on the left and a main content area on the right. The table of contents lists six items, with item 6 highlighted in yellow. The main content area displays the Erasmus+ logo, the project title, partner countries, and a photo of people outdoors.

KONTAKT

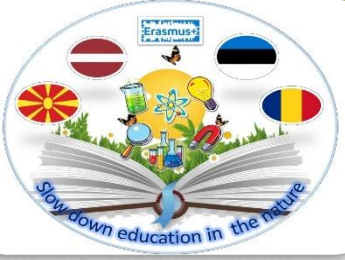

sisustamine ilma nutiseadmeteta. Õpilased korraldavad vabaõhutegevusi lähtudes tervislikest eluviisidest (kehaline aktiivsus, tervislik toitumine, värsk õhk). Selline tegevus parandab õpilaste vahelisi suhteid, enesehinnangut ja motivatsiooni õppida, sest looduses õppimise ajal mõistavad nad teoreetilise õppe ja looduses toimuvate protsesside seost. Kohtumised teiste riikide õpilastega laiendavad laste silmaringi, vältides käitumisprobleeme ja õpiraskusi.

Hobby group

**Hobby group meetings
once a week
-hobby group motivate
all other students to
implement active and
helthy lifestyle**

Hobby group activities

- Organizing games and leisure time activities at school every week
- Activities outside and inside of school house

Hobby grupop activities

- **Active games leading by Hobby group**

Hobby group activities

**Cleaning action around
the school and community**
