✓ Logo competition	✓ Active lessons breaks outside screens
✓ Hobby groups (afterschool activities)	✓ Activities for peers
✓ STEM lessons in nature	✓ Global Wellness Day for families
✓ Environment for learning in nature and active lesson breaks	
✓ Essays about excursions	

Project-based work at school

Student's project-based work contest on healthy living and STEM (October- March)

1. stage – school level

Students will make project-based work about healthy lifestyle or STEM in groups of 3 – 4 (one of students had participated in Summer camp activity and will lead group), producing innovative, creative ideas about:

- how to teach schoolchildren (peers) to lead a healthy life, involve students in organizing healthy activities
- to develop tools or materials to interest peers in STEM (video games, games in nature, research work in nature, etc.).

Students' groups will present their result to Evaluation committee and peers.

2. Stage – international level

2 best groups from each country will present their project work in short students exchange activity in EST (March 2022)

International activities

- Kick – off meeting (Virtual) 12/2020
- Teacher training about STEM learning in nature (EST) – Virtual (Blended) 04/2021 + ...
- **Summer Camp (LV) 08/2021**
