- Preparing for team work
- Framework for project-based practical work

Technical questions

Agenda for Summer Camp

List of participants

What is slow life lifestyle

- A cultural shift toward slowing down life's pace.
- The slow movement is about slowing down and having richer relationships with people.

Fast vs. Slow

Fast	Slow
Commercial	Traditional
Industrial	Local
Global	Unique
Standardised	Sustainable

Meaning, impressions, thoughts, ideas, etc.

Slow food

Slow travel

Slow education/ school

Slow living

Slow money

Project «Slow education in the nature»

Initiation of slow education activities in learning process and leisure time

- Common local activities
- International activities (mobilities)
- Online, virtual activities (Zoom, TwinSpace)

Common local activities

Done or started	Planned
<ul style="list-style-type: none">✓ Survey✓ Logo competition✓ Hobby groups (afterschool activities)✓ STEM lessons in nature✓ Environment for learning in nature and active lesson breaks✓ Essays about excursions	<ul style="list-style-type: none">✓ Contest: Project- based practical work/ projects/ research work on healthy living or STEM✓ Active lessons breaks outside screens✓ Activities for peers✓ Global Wellness Day for families

International activities

- Kick – off meeting (Virtual)
- Teacher training about STEM learning in nature (EST) - Virtual
- **Summer Camp (LV)**
- Teacher training about Project-based learning "Joint work to improve learning quality" (NM)
- Student's exchange “Project-based work presentations” and teachers training (EST)
- Teachers training “ Exchange of good practice” (RO)
- Student's exchange “Project based learning STEM” (NM)

Short term exchanges of group of pupils activity «Summer Camp»

The main goal is to get to know all partner schools, countries and their culture, their traditions and habits and also rise awareness about healthy lifestyle using the project-based method.

Set the goal of Summer Camp for each participant

Project – based approach

- What it is?
- Why?
- What we will do at our school?

Project-based work at school

Student's project-based work contest on healthy living and STEM (October- March)

1. stage – school level

Students will make project-based work about healthy lifestyle or STEM in groups of 3 – 4 (one of students had participated in Summer camp activity and will lead group), producing innovative, creative ideas about:

- how to teach schoolchildren (peers) to lead a healthy life, involve students in organizing healthy activities
- to develop tools or materials to interest peers in STEM (video games, games in nature, research work in nature, etc.).

Students' groups will present their result to Evaluation committee and peers.

2. Stage – international level

2 best groups from each country will present their project work in short students exchange activity in EST (March 2022)

Preparing for team work

ESTABLISHMENT OF WORKING GROUPS:
19 STUDENTS + 4 TEACHERS = 4 GROUPS

2 STEPS

Framework for project-based practical work

- Introduction with topic, venue, expert
- Food – Slow food
- Sport – Healthy physical activities
- Relationship – Respectful communication
- My inner world – Stress management
