GIMNAZIJA I STRUKOVNA ŠKOLA
BERNARDINA FRANKOPANA,
OGULIN

<http://www.gimnazija-strukovnaibfrankopana-ogulin.skole.hr/>

Gimnazija i strukovna škola Bernardina Frankopana iz Ogulina već nekoliko godina za redom obilježava Dane Erasmusa. Erasmus + program najveći je program Europske unije namijenjen obrazovanju, osposobljavanju, mladima i sportu.

Dani Erasmusa održavaju se od 2017. godine u većini europskih zemalja, pa tako i u Hrvatskoj. Cilj je informirati korisnike, sudionike, ustanove, organizacije, udruge, mreže i inicijative o rezultatima mnogobrojnih primjera dobre prakse, mogućnostima za uključivanje i nove ideje za sudjelovanje u Erasmus + programu. Ove godine Dani Erasmusa održavaju se od 15. do 17. listopada.

Naša škola sudjeluje u Erasmus + projektu pod nazivom *Social Cohesion – give a hand to become a friend*. Riječ je o razmjeni iskustava sa školama iz Litve, Portugala, Bugarske i Španjolske. Nastavnici koji sudjeluju u projektu su: Manuela Mihaljević Sabljak, Sanja Dubić, Hrvoje Magdić, Dragan Sabljak, Bojan Grba, a koordinator projekta je Branko Rumenović. Dane Erasmusa organiziraju Manuela Mihaljević Sabljak i Branko Rumenović.

Sama organizacija prijavljena je već u kolovozu 2020. godine. Prijavljeno je nekoliko aktivnosti i naša je škola ušla na kartu velike obitelji Erasmus + projekata.

Za ovu nam je aktivnost Agencija za mobilnost i programe Europske unije poslala promotivne materijale koji su podijeljeni učenicima sudionicima Erasmus + projekta kao i eTwinning projekata.

Prva aktivnost koja se 15. listopada održala u našoj školi prezentacija je Erasmus + projekta. Koordinator projekta Branko Rumenović predstavio je učenicima 3. i 4. razreda zanimanja ekonomist projekt *Social cohesion – give a hand to become a friend*. U predstavljanju projekta pomogli su i učenici koji su sudjelovali u mobilnosti u Mađarskoj: Helena Mudrić, Sara Rendulić i Renato Tonković.

Zatim su predstavljeni i eTwinning projekti koji su nagrađeni nacionalnom oznakom kvalitete: *Life & Money*, *Social cohesion – give a hand to become a friend* te *Teenagers E.P.e. (European Parliament e-Twinning)*. Budući da su navedeni eTwinning projekti nagrađeni, učenici koji su sudjelovali u projektu dobili su certifikat, odnosno priznanje za svoj rad.

Certifikat učenicima 4. c razreda za sudjelovanje u eTwinning projektu *Social cohesion – give a hand to become a friend* uručila je pedagoginja Sanja Dubić, a certifikat za sudjelovanje u eTwinning projektu *Life & Money* razrednica Manuela Mihaljević Sabljak.

Sljedeći dan, 16. listopada, održan je webinar za učenike 3. c razreda zanimanja ekonomist. Webinar su održali Helena Homedes i Maria Jose Garcia iz Valencie iz Španjolske i Branko Rumenović iz Ogulina. Predavači su upoznali učenike s mogućnošću Erasmus programa. Ovaj webinar bio je uvod i u buduću suradnju škole iz Valencie i Ogulina. Nastavnici su prezentirali novi eTwinning projekt iz područja ekonomije i statistike *eTwinninggreen4u* namijenjen učenicima 3. c razreda.

Naši nastavnici aktivni su sudionici eTwinning portala i vode različite grupe za edukaciju nastavnika. U grupi za nastavnike *Statistics at Schools* osmišljena je cijela aktivnost o Erasmus danima u Gimnaziji i strukovnoj školi Bernardina Frankopana u Ogulinu. U grupi sudjeluje oko 300 nastavnika iz različitih zemalja Europe. Nastavnici ovdje komentiraju aktivnosti nastavnika iz Ogulina, ali i promoviraju svoje događaje i aktivnosti.

Obilježavanje ovoga važnoga međunarodnog događaja, ali i sudjelovanje u Erasmus + projektu čini našu školu prepoznatljivom u Europi.

FROM THE 2018 NATIONAL CLIMATE ASSESSMENT

Climate Change's Economic Impact

The National Climate Assessment warns that the costs of global warming are rising. If greenhouse gas emissions continue at a high rate (RCP 8.5), damage from climate change is expected to cost the U.S. economy hundreds of billions of dollars every year by 2050. If emissions peak before mid-century and start to decline (RCP 4.5), the U.S. economy will still suffer, but the cost will be less. The chart shows some of the top economic expenses.

Did you know? A large proportion of greenhouse gas emissions comes from food production, and meat and dairy are associated with much higher carbon emissions than plant-based food.
