

EXAMPLES OF TEAMBUILDING IN SPAIN

In our school we do a lot of works with teambuilding like in P.E where we do a lot of team sports, which helps us learn to cooperate and share. We also do investigation teamworks, that lets us learn to communicate with each other, and respect other's ideas. Besides, we explain to the rest of the class our work, helping us to learn how to talk in public and express ourselves correctly. That makes us be more confident

Teambuilding makes us talk more with our classmates, making us make new friends. It also makes us communicate more with our teachers, allowing us to get along well with them.

Also, teambuilding prepares us to the future because nowadays works are based in cooperation with the co-worker.

In our school, we usually do a lot of teamwork in all our subjects

In PE, we play team sports, like volleyball, so we need to cooperate and talk between us. This makes the relationship between classmates stronger, making even friends.

In other subjects, like English, we speak between us so we can practice speaking. Our last work was do an interview. A classmate acted as interviewer and another classmate as interviewed. This activity made us be more confident, which is something necessary to speak in public. We had to communicate too, we should decide between the two about what the interview had to be and what role each one would act. Furthermore, it maked us think in a creatively way.

In literature, when we finish a book, the students talk about the story we have read. The teacher participated in the debate too. This activity makes us get along with our classmates and the teacher because we talk more with each other and about a topic that we all know and like.

To sum up, we think that teambuilding is very important to gain confident, make new friends, learn to talk in public and to cooperate.

Also, teambuilding prepares us to the future because nowadays works are based in cooperation with the co-worker.
