September 2015  
„Differences”

# Trip around the world

# Children around the world

# Let's learn something about children from other countries – how do they look, what kind of clothes do they wear

# We can look like children from other countries

# Trip to Africa

# Creating masks to story about little „different” Gibbon, which was white and was looking for a friend

**Friends – no matter how different you are – if you will find right person, you will find a real friend**

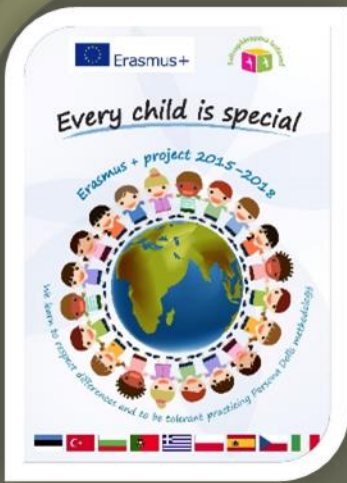

# Creating different people figures

# Tree of peace – we can and we must be different – the most important thing for people around the world is **RESPECT**

# ERASMUS+ PROJECT „Every child is special”

Poland presentation activities  
October 2015  
„I'm special”

# Creating „This is me” card

# Creating „This is me” card

- On this card children put in information about favourites colors, food, toys, books, they made trousers and skirts in favourite colors. That was first step to make „I’m special” wall

# What else do I like

# Let's make our own favourite clothes

# Fashion show – each of us have own costume, each one is great, each one is SPECIAL

# The most important – to have original style

# When we look different world is most colorfull

It's not so easy to say few words about myself, so **TIGER** will help us with that

# Autopresentation – children are trying to say about themselves

# I'm special Posters

# I'm special because... – presentations with posters

# Let's make photoframes for best friend – he/she is special, and I'm special too

**We also can have very special friends – they have special needs but they also have similar hobbies**

# Creating „What do I like, what do you like” posters

# Ours „I'm special” walls

# What did children learn after activities:

---

- Children from other countries also love play the same games as we
- All children have the same rights
- Differences are interesting
- The best friend can have a diferent color of skin
- Differences don't interfere in common play
- We have different interests - so we can learn from each other about different subjects
- Some of our interests are the same - it's great because we have common topics to talk
- Our interests are very important for each of us
- We must respect choices of our friends even if we don't like it
- our differences and similarities make us special

# I'M SPECIAL SONG
