

# WWF

The World Wide Fund(WWF) is an international non-profit organisation founded in 1961. It is the world's largest organisation with over five million supporters worldwide, working in more than 100 countries, supporting around 1,300 environmental projects. They have invested over \$1 billion in more than 12,000 conservation initiatives since 1995.

The group aims to stop the degradation of the planet's natural environment and to build a future in which humans live in harmony with nature. Currently, their work is organized around these six areas: food, climate, freshwater, wildlife, forests and oceans.
