Our school participates in two ERASMUS + programs
KA229, Exchanges of good practices in Education.

ERASMUS+

"LITTLE STEPS MAKE A BIG DIFFERENCE. TOGETHER, WE CARE FOR OUR HOME"

This European program, aims to transform the 6 European schools involved in the partnership into sustainable schools in the ecological, social and economic field of cooperation. The eco committee (pupils from 6 countries), Poland, Slovakia, Greece, Spain, Turkey and Romania, have worked on specific tasks in order to transform each school into a viable space for all participants and the school society, in ecological, social and economic level. Schools that successfully carry out all necessary tasks, will be awarded the certificate of "Green Flag"

UN 17 GOALS OF SUSTAINABLE DEVELOPMENT IN THE ENGLISH CLASSROOM...

The school curriculum for English Language Teaching was adapted to fit the Education 2030 Framework for Action. The Sustainable Development Goals are the blueprint to achieve a better and more sustainable future for all. They address the global challenges we face. The Goals interconnect and in order to leave no one behind, it is important that we achieve each Goal and target by 2030.

We have mainly focused on

&

“YOU ARE MY EVERYTHING...!”

“Earth and water are seen as a couple... I think they look cute together but this is also because our planet NEEDS water. Earth says “you are my everything” because without water, earth would have been a big rock floating around space for no reason...”

By Giota anogiannaki

“WORLD WATER DAY”

This video was created by 2A students" class, to celebrate March, 22nd. The students made English-language research on water issues and present their conclusions in Greek with English subtitles.

The pupils who participated in the activity are the following in the order they appear:

Gregoria Lygeraki, Vasilakopoulos Giorgos, Pleronaki Hara, Tsakalaki Maria, Ziou Ariana, Michalis Tsambourakis, Kalaitzaki Irini, Xypaki Eleni, Georgakopoulou Eleftheria, Katarzoglou Panagiotis, Zachra Etzbara

25 YEARS ECO SCHOOLS ANNIVERSARY VIDEO CAMPAIGN

I'VE GOT THE POWER!

In 2019, Eco-Schools celebrates 25 years of excellence in the field of Environmental Education and Education for Sustainable Development.

This campaign aims to involve each and every actor within the Eco-Schools global network – students, teachers, school and University administration, school staff, volunteers, other organizations, and our institutional and corporate partners – to voice a message to the global community; that it only takes an idea told out loud to engage ourselves and our political leaders in positive actions!
