- the project was well organised
- no comments
- They were great to improve our skills
- NO
- They were really good.
- não
- the project was very well organised.
- There were a fascinating activity includes great speeches.
- no, it was so good
- The project was instructive and perfect.

ABOUT THE WHOLE PROJECT:

For you, to what extent the following objectives have been met?

What have you liked the most about the project?

- The political speeches
- the political speeches
- political speeches
- Learning more about topics that I think that are important (ocean acidification, for example)
- work with my teammates
- Yes
- Meet different friend
- Learning more about climate change and the consequences of not taking care of the planet
- The interaction between different cultures and views.
- The idea of working internationally
- how important it is to do a good speech
- Cooperate with my teammates.
- Political speeches
- That I think that I learnt a lot of new things, vocabulary, do a speech...
- what I learnt
- Political speeches
- it has been working with other countries and learning more about climate change
- Work on food waste.
- Meeting new people
- Analysis of body language techniques in speeches
- Exchange of ideas
- Learning about invisible waste and ugly food.
- I liked the conferences
- I liked to write and record political speeches most about the project.
- The opportunity to speak to other people
- Writing and recording speeches
- Speaking publicly about climate change and learning more about what happens around the world
- The activities about ugly food
- Learning about ugly food
- Working in a speech with my group and learning about ugly food as I wasn't aware of it

- The biodiversity loss activity and speech
- Work with international people
- About sharing our speeches in a serious meeting, I felt very confident in that activity.
- the political speeches
- I think I liked the part where students acted like politicians the most.
- The first topic and their activities; invisible waste
- Learn about ugly food and the climate change
- The conference between different countries.
- Getting to know other people from the participating countries, and becoming more aware of the environmental situation.
- Making speech as a real minister and all children looked for solution to climate change.
- The political analysis even though it could be given deeper on the subject.
- Learning about invisible waste and ugly food
- Learn about the problems the world faces.
- I really know a lot about climate change.
- The political speeches
- learning new things about this serious issue
- The most part of the project is making us feel more responsible.
- I learned a lot of climate change
- Being in a project with students from other countries is always amazing to me.
- Foi uma experiência muito positiva.
- I loved political speeches
- do the work in group
- Everything was perfect.

What have you liked the least?

- Nothing
- The activity about analysing political speeches
- the part that were too much long
- Yes
- Bad peoples
- We had little interaction with students in other countries
- Sometimes the work we had to do coincided with schoolwork.
- That other countries haven't implicate as much as we have
- that sometimes we spent a lot of time talking about this
- Watch documentals about the environment.
- There is no part that I didn't like. I liked all the parts
- There are activities that are very bored.
- all the info about the pollution
- has been to analyze how they presented
- Analyze the political speeches.
- Not talking much with them via videoconference
- Students' online meeting: INTERNATIONAL CONVENTION ON CLIMATE CHANGE *
- Analyzing political speeches.

- I don't know
- I liked everything about the project.
- The writings
- The interaction with other countries.
- Linguistic analysis
- All the other activities
- The activity of the speeches
- Analysing political speeches
- Maybe the activity from ugly food
- Have to do little writings about ugly food
- I liked them all
- I don't think I can answer because they were all great.
- Had to do the speech
- the analysis of the speech
- The form that we have done the tasks.
- Maybe the fact that we didn't do many videoconferences with other countries.
- The activities on public speech. It could be done in a more practical way.
- The part that talk about the wonky food.
- to analyse speeches
- The conferences.
- nothing I particularly disliked.
- online meeting parts
- I think I can not complain about anything
- I would like to do more activities with the students in other countries.
- I liked everything.
- De apresentar o discurso.
- nothing in special, all are great

What have you learnt?

- we have learned a lot of information about climate change and public speaking
- More about the ocean acidification, ugly food...
- the backward parts of the climate change
- we learnt a lot of information about climate change and public speaking
- We have learned a lot of information about climate change and public speaking
- Yes
- Protect world
- Mostly about the climate and ugly food
- I have learnt about climate challenges.
- climate change, its effects on earth and political speeches
- A lot about the critical situation of Climate change
- that is very important to look to the other people when you are in a meeting and also to move a lot your hands for do a better speech
- I learned a lot of information about junky food.
- I learned to respect nature and climate change is a fact

- A lot of things, more vocabulary, new things about global warming, what can do speeches, some problems in the world...
- all about the pollution
- We have learned a lot of information about climate change and public speaking
- I have learned about climate change, the solutions to this problem, how to communicate with other countries, work as a team ...
- How to recycle and analyze speeches.
- We have learned a lot of information about climate change and public speaking.
- More causes of the climate change
- I have learned so many new and critical facts about climate change and raised my awareness.
- A lot about ugly food and invisible waste.
- I learnt a lot of things about Climate Change.
- I knew about climate change but i didn't know how to solve it. I have learnt solutions against climate change through the project.
- Some measures to stop climate Change and what are the problema involved
- A lot about climate change, food waste and invisible trash
- That the world has many problems far more than what we see in front of us and we have to take action for it
- nothing
- Information about ugly food, and developing some writing, speaking and reading skills.
- We have learnt lots of information about climate change and public speaking
- The whole topic about ugly food and speeches skills
- Internet pollution
- How many risks there are for human health due climate change
- I've learnt the reasons of climate change, how to prevent it and also the actions that countries take in this period of time. This project was so informative for me.
- we have learned a lot of information about climate chance and public speaking
- I learned the problems and solutions of climate change and how to act.
- I improved my knows about ugly food and climate change
- A lot of ways to fight the climate change
- About invisible waste.
- About the environmental situation currently
- I have learnt new solution to climate change and also acts of variety countries to climate change.
- About public speech, invisible waste and food waste.
- How human activities effect our environment.
- about climate change
- About ugly foods, fast fashion.
- I've learned the consequences of climate change, the harms, how we can stop it.
- I have learnt importance of climate change and global warming.
- i learned so much things that i can't write
- We have lots of waste than
- How our world is in a very hard situation
- I learnt to be more confident, to be honest.
- We have learned a lot of information about climate change and publing speaking

- A controlar melhor os nervos.
- I learnt about impacts of climate change and solutions about it.
- a lot of vocabulary
- I have learned so much things about how bad is climate change and more.

How can the project be improved?

- I don't know
- You can do more videoconferences for the students
- Yes
- Maybe animatons
- doing a campaign to the public
- The project could be improved by promoting more student-to-student interaction.
- With an erasmus
- to practise in front of the class
- I think is perfect.
- it is very well organised
- I thing that can do more activities, travels, more speechs, more talks...
- i liked so much, so, i don't think there is any topic to be improved
- for me this project is good
- For me was perfect.
- Do more meetings
- We can produce more materials that can be shared on our social media that It will help to project to be well known.
- If projects are implemented. I mean, we should do something instead of just talking about it
- Searching ways to improve the relation/comunication between the students of different countries, because it's the most atractive part of the project.
- More countries can be reached
- We can organise more meettings with students from other countries.
- Nothing to print out
- By including more people and countries into it,more is better!
- changing the topic and the activities.
- By not making the speeches activities
- Obviously if there wasn't COVID it would be better to be able to meet the other students in person and the part of doing the project to reduce wasting ugly food I think it would have been super cool to make it real
- I think it is very good so there is no need to improve it
- Try to work more time with the international groups
- It's good by own
- Maybe we can share all the materials that we find with other participants. So everyone would be informed.
- doing more things. I mean in half of the time we had been doing the same. If we had change it and done different topics it would had been better.
- Doing more interactive activities with the other countries
- More participative tasks.

- Maybe more country can participate
- More interactive activities between the foreign students. However I know that with Covid this year was more difficult to make.
- by doing more online meetings with the other countries
- Visiting other countries.
- I think it was a pretty good project anyway. but if you want to improve, maybe different activities can be done.
- it would be much more better if there was no covid-19
- Maybe there can be more webinar with experts.
- Do more interesting activities and not only write and do projects
- I think it is already really good, so I don't have any brilliant idea now.
- Na minha opinião está bem assim.
- Could be better with more social, global, face to face or online activities.
- more activities and more dynamics
- There is no need to the project be improved because the project is already perfect.

Any other comment?

- no
- No
- No.
- This is important students
- No other comments.
- not really
- I think is very good saying the opinion of other people talking, but if we do us is going to be better
- Thank you
- No comment
- It was a pleasure to work on this project.
- Nope
- Thank you for everything. I am so glad to be in this project.
- Thank you for everything. :)
- As I mentioned it was an informative and enjoyable project. I've learnt and enjoyed in each activity at the same time. Thank you
- This project was a great experience for me. It was really informative, thanks so much for the effort.
- no, sorry
- no, i think the other parts of the project are good
- No, thanks.
- it's been a pleasure to work in this project
- Thank you all for your attention about this topic.
- NO
- I don't have any other comment.
- não.
- Thanks for this amazing project
- I loved the project.
