## What has your work with other teachers from other countries brought you?

5 responses

The other teachers is amazing and work very weel. Thank you!

A lot of new ideas, motivation, comparison with other cultures and teacher methods etc...

It has been a very nice experience the one I had this year with my partners during this project.

As a first experience in a eTwinning project, I really appreciated the expertise of other colleagues. I was an occasion to exchange in a different manner compared to the interaction with colleagues from my school. Cultural aspects, sharing points of view has been a real positive point for me in this project. Training English language in a professional context is also very nice !

collaboration

## Do you think English language has been a problem for your students to do the tasks?

5 responses

- No, in fact, they have improved their reading, listening and speaking skills in this language
- Yes, but some of them made an effort to improve their English
- Yes, and some students didn't work because they were afraid of English

Grade how much your students have learned about climate change from 1 (nothing) to 5 (a lot)

5 responses

Taking into account students' participation and the results of their assessment, what is your opinion about this project?

5 responses

Amazing project! I want more!

It was a wonderful experience :D

Our students have been really motivated and has become quite aware of the big problem we are suffering with climate change. They have put forward different ideas and solutions to solve this terrible problem our Earth has.

Clearly, the English level of my students has been the main hurdle but some students (the older ones) have been pleased to take part in this project : it was something new for them and they appreciated the original activities that have been proposed (logo and meme creation in particular). The project has been so appreciated by some students that they chose it as a subject for their oral presentation in the context of the official final middle school exam

they enjoyed alot and leearned alot
