

Isak Tiset

03.11.2014

*Hello my name is Isak. I'm 15 years old and live in Selbu, Norway. My family consists of 6 members, which is in the range of 15 to 44 years old. My family is pretty close to one another and we all live pretty close to each other.*

*In school my favorite subjects are English and Gymnastics, because English is a very interesting language, which you need to know how to speak, and gymnastics because I like to be active and workout.*

*In my spare time I mostly sit in my room playing games on my computer with friends and strangers online. When I play the games I like to listen to music. Mostly I like to listen to rap, or rock, but listen to pop sometimes.*

*A normal day in my life consist of waking up at 7pm and eating breakfast. After that I catch the bus to school and we finish school at 4am on Mondays and 2am on the other days. After schools I go home eat my dinner, do my homework, play for a couple of hours, go to bed, and repeat.*

*Next year I will start my first year of high school where I will be studying electronics to become something electronic related.*
