

Dear futuristic slave of human inventions (since we already are that in 2014, I guess you guys will be even worse. Don't take it the wrong way.)

Hello, my name is Nadia. I live in Selbu, a small town in Norway. I am 14 in 25 days (December 5th.) My hobbies are reading, singing, drawing and cooking. The books I enjoy are mostly fantasy, dystopian books or romantic novels. My favorite books are Percy Jackson, The hunger games, the maze runner, The lord of the rings, The fault in our stars, Looking for Alaska, Harry Potter, An abundance of Katherines, Paper towns, Uglies, The maze runner, Divergent and The mortal instruments. (I'm guessing you've never heard of them, that makes me sad.) . I am a very weird person, a bit negative and not very funny (If you are a fangirl/boy you will think I'm hilarious, but non fangirls/boys just don't get the humor.) I am also obsessed with two youtubers (YouTube is a website where you watch videos and listen to music.) They are called Dan and Phil. I don't know what kinds of technical devices you have in the future, but I think that if you try you will find them.

The music I enjoy is rock, heavy metal and some, but very few pop songs. I also enjoy musicals and movie soundtracks. My favourite bands are Metallica, Queen, Linkin Park, Nightwish and five finger death punch. I have been singing ever since I was able to talk. Sadly I don't play any instruments, but I wish I did. My current favourite songs is "coming down" by five finger death punch, "In my remains" by linkin park and "Deep in the meadow" from the hunger games.

I am not a very interesting person, so I don't quite know what else to tell you. Fine, I'll tell you my biggest dreams. My biggest dream is to become a famous singer (perhaps you've heard of me in the future, time will tell), my other dream is to become a famous actress. The one dream I have already stated on pursuing is to become an author, I have started writing a book, but it's harder than I thought.

My biggest idols are an actress called Jennifer Lawrence (google her if you don't know who that is, she is amazing,) she is such a good person and I wish to be like her. My other idol is Freddie Mercury (again google him) he was the singer in Queen, and he had such a marvelous voice, he had an amazing look on life and I wish to become a bit like him. My other idol is my grandfather, I look up to him in every way possible and I love him.

Society right now is messed up, everyone, well almost everyone is addicted to their phones and computers. I have to admit that I am one of those. We have phones with touch screens. That means that there is a screen and you use your fingers to press on the screen and then the thing you press pops up. There is always new phones released, the most popular ones are the brands iPhone, Samsung and Nokia (what types of phones do you have in 2114, do you even have phones?). Another thing is that pop music is absolutely horrible! It is only a repeating melody and a bass boost, it drives me nuts!

Selbu, Norway 10.11.2014

I also love to watch movies, my favorite non fandom(that means movies that is not a book to movie adaptation) movie is a movie called Nowhere boy. My favorite actor is in it and it has music and I just simply love it.

I also have a slight obsession with unicorns, fabulousness and Instagram (a social media where you post pictures.) I have an internet friend and we are fabulous unicorns.

So enough about me.

Hope you liked to hear about my life.

With love from the past

Nadia☺
