

Hello,

My name is Alicja. I'm fourteen years old. I live in Piotrowice a small village in Poland and I study at high school in Męcinka.

I will tell you something about me. My hobby is definitely sport, films, books and music. I like playing volleyball, football and watching tennis. I can't tell you my favourite title book or film, because I love a lot! I enjoy almost every kind of music but I love rock. Most usually I listen to my favourite bands, Coldplay, happy sad, Hey, Kings of Leon, 30 second to the moon and much more. I hope you listen to them even in 2114! To be in future. I have many ideas

I like my school. It's a big and pretty building in Męcinka. I take a bus there, like most students. In classes there are chairs, desks and a blackboard. In classes we seldom use the internet. We write with chalk on the blackboard or pen in our notebooks. Teachers in my school are different, some are indulgent and nice and others are fastidious and scumy. My favourite lesson are: English, Polish, History.

Now something about the world in which I live. Computers, laptops etc. are popular. We use fuel for cars. My generation spent a lot of time in front of the computer.

I hope you live in safer and better world.

I wish you all the best my friend of the future.

Love,  
Alicja
