

9<sup>th</sup> September 2014

Dear reader

Hello. My name is Magda. I'm fourteen years old. I live in a small, but beautiful village in Poland in South Silesia. I study at Mikołaj Kopernik middle school in Męcinka.

I have many hobbies. I enjoy reading adventure and fantasy books and listening to music. I love playing volleyball and I'm really good at it. My favourite music genre is rap, reggae and rock. And my favourite music band is Nirvana.

I really enjoy going to school. My teachers are patient and demanding, but that's because they want to have talented students. My favourite school subjects are: English, Polish and History. I don't like: Biology, Physics, Chemistry and Mathematics. I'm curious what items do you like and what you do not.

In the nearest future I would like to be a volleyball player and be a part of the Polish national representation. This work is very profitable and I could do something that I love. I would like to know what are your dreams.

That's all about me. Now I would like to write something about the achievements of our Poland men's national representation team. In fact our country is one of the best in the world in this sport discipline.

In 2012 Poland was ranked 1<sup>st</sup> in the Volleyball World League. Now we are hosting volleyball World Cup, which runs from 30<sup>th</sup> August to 21<sup>st</sup> September. Polish passed through the first group state and advanced to the second. I do hope that our team will achieve a high place.

I hope that this letter was not so dull and I did not bore you with it so much. :)

I wish you great live and fame  
Magda
