

**TIME CAPSULE  
2014 - 2014  
FOR FUTURE  
GENERATIONS**

Hi!

My name is Jacob and I live in Radom in Poland. I'm twelve. I'm a student primary school in Radom. I want to tell you about my day.

I wake up at 5 o'clock, but I often oversleep. Then, I try to wake up again at 6 o'clock. The lesson start at half past seven, but I'm always late. My school has good teachers and students. The lessons aren't boring. Some of them are really funny. We write in notebooks, but you're probably writing on PC's. The lessons end at half past one, but I return to home at seven o'clock. When I'm at home I do my homework and it takes me over three three hours. After that, I go to sleep. But wait a minute... I forgot it...

I don't have free time !!!  
We spend too much time learning. The only good thing is the fact that we have long holidays - 8 weeks !

I wish I could meet you :C

Bye for now,  
Jacob
