Hello,

My name is Denistean Claudiu Daniel, I'm 14 years old and I live in Păulești, Satu Mare.

Every day, excepting week-ends, I get up at 7 o'clock in the morning and I prepare for school. I often wear jeans.

I met my friends at 7:30 and we walk to the Gimnazial School of Păulești. Classes are starting at 8 o'clock.

We stay at school till 2 P.M. In the afternoon, I do my homework then I watch TV, play video games or read. My favorite book is "Da Vinci's Code" by Dan Brown.

I like listening to music. My favorite singers are: Lady Gaga, Katy Perry, Adele and Kesha. I admire Katy Perry. She's my idol because she sings about her life and makes me feel happy.

I love pets, especially cats. I have six cats and a dog at home.

My dream is to fly to America and become a programmer.

I warn people from the future against war and my message to the next generations is: Protect the Earth as it is your home!

I wonder how life will be in the future ...

Finally, I would like to thank my English teacher, Néma Ildikó, for helping me write this letter and my physics teacher, Tat Rus Camelia, for involving me in this amazing e-Twinning project.

With friendship,

Daniel
