

Our tree of wishes
Jeanne d'Arc School-France

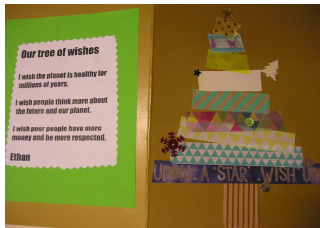

I wish all children can go to school.

I wish people think more about the futur and our planet.
I wish people respect the earth as a jewel.
I wish that the inhabitants of the world pollute the earth less.
I wish animals do not eat plastic.
I wish the pollution stop and leave the nature quiet.
I wish the pollution do not exist.

I wish the deforestation stop.
I wish nature to recover from deforestation.
I wish people don't cut the forest.
I wish they stop cutting trees.

I wish the world to be in peace.
I wish the wars stop in the whole world.
I wish there were no more wars in the whole world.
I wish the whole world is not in danger.
I wish there were no more quarrels in the world.

I wish the planet is healthy for millions of years.
I wish poor people have more money and be more respected.
I wish every people eat one's fill.
I wish the children in the hospitals have more money.
I wish there were more farmers in the world.

I wish my little brother is no handicapped.
I wish to have a dog and a lake to fish.
I wish I have white dog.
I wish everyone to work well.
I wish to be a good basket ball player.
I wish we could stop complaining for nothing because there are people more unhappy than us.

I wish the joy reigns.
I only wish happiness.
I wish the world is happier.
I wish there is happiness all over the world.
