

## OUR TREE OF WHISHES

Dear partners,

we are students of a kindergarten located in Chieti, a city in the central part of Italy. We are very small, we are only 5 years old, we don't know how to write but we have very clear ideas especially for everything related to our wishes.

We wish you all to become our friends, to be able to play together, to be able to embrace you warmly and welcome you in our homes. We wish to go out to eat an ice cream together, share a lunch and maybe give you a cake made by us.

We wish you always be happy with your families and teachers.

We wish you wonderful things always.

Kisses
