

"STREET ANIMALS"

E-TWINNING PROJECT

Hi, I'm Mia, I'm 3 years old, I have been abandoned and I live on the street, I have many friends to have fun with, but I would like to have a family that would welcome me. As soon as I wake up I go for a walk, people look at me with a happy face, But I am afraid of them and I run away or let them caress me. After a while I return home and eat thanks to the people who give us food, a kennel to sleep in and blankets for winter .I am very happy, to have a family even if I live on the street but with my friends cats and we have many adventures. I do not know if one day they will adduce me I will be very happy to make a family happy. Here is Mia's day !!

Hello! My name is Charly and
I'am a stray cat.
I wake up when the sun comes
up and my cat lady feed me.
I play with my fellow man and
I play with the people I meet.
I go back to my flowerbed and
I go to sleep under the cars.

Hi my name is billy.i'm a cat
Everyday i search for food in the bins, in
the
morning i play with my cat friends.
In the afternoon look for food for the
evening
As a last thing I sleep under the car

A stray animal's typical day

Hi my name is Lilly, a cat of a stray. I'm grey, dark grey and I've got green eyes.

Going to tell you that my days aren't very boring because I play with my cats friends.

In the morning I enjoy following people and hide me under the cars: it's like playing hide and seek!

At lunch time, a volunteer of an animal protection association, brings to me food: I'm super happy!!!

After lunch I always sleep a little and I sharpen my nails.

After this relaxing moment I play with my friends. When it gets dark we scare people with our bright eyes...we cats have to have fun too!

In the evening we are very tired and go to sleep after saying good night

my name is max

*my name is max, i am a street cat.
i get, in morning i watch the people
and i would like to be adopted by
one of them. at lunch a cat lady
feeds me.*

*in the afternoon i play with my
friends under the car. at the end of
the day i feel sad. in the evening i go*

to sleep under the car.

my name is luna, i am brown spotted and all white and i am a stray dog. i always see other dogs like me, i usually eat all day. i walk in the evening and i don't have a house to sleep in.

luna

hello, my name is aki, i am a kitten and i am very lively, i am a free spirit .. every morning i wake up, go to the water bowl, drink and then i go to the other cats, i spend my days with my cat friends and with the people who come to visit us, being cats, sometimes we have to spend the days with a white dog and we always fight. I don't like humans very much, but do I like being with children? a moment that I take the vocabulary of human language ... yes children, because they show a lot of affection and are very cute. As soon as one o'clock arrives I go to eat the croquettes then I rest and wash myself, then I sunbathe and have dinner and finally ... I sleep

Describe a stray animal's typical day.

Hi I'm Tigre I'm a stray cat. In the morning I wake up at dawn and walk in the garden of the building where I live, then I play a bit with my friends, late in the morning a lady who feeds me arrives, after lunch I love to put my stomach up where there is more sun. I spend the afternoon hours watching children play ball and then go hunting for something that might interest me. In the evening I get together with my friends and we go to sleep in the bushes.

Describe a stray animal's typical day.

Hello, my name is Miky and I am a cat.

The morning I go in search of food; every day I see many people walking, and I approach them in the hope that someone will adopt me, but until now no one has done so. I haven't got a fixed home so I wander around at night hoping to find cat shelters. And the next day everything starts again as if nothing had changed from yesterday.

We are Sale and Pepe , We are 7 years old and i have lived in our house for several years.i have been the dog of a little family which left me around loose on the street . We want to be adopted by a family , that welcomes us .

We sleep in the street. and rarerly eat , thanks to good people who bring us canned food.

We would like have attention and love

.

I'm a stray animal. I'm a cat and I eat what I find in the streets. I sleep under the cars, because there is warmth. When it's sunny I love to lie down and enjoy the sun rays to get warm. I'm free to go wherever I want, but I don't want to be alone and without a family that can give me love.

Giuseppe L.

LYON

A stray dog wanders around the city in search of food and water but life is not easy for him because to do this he has to cross busy streets risking not to be run over, then he also meets ugly people who mistreat him, then if it's cold he must look for a place to take refuge, except that stray dogs are alone and have no cuddles from anyone.

My name is Michela. I am a stray cat. Let me tell you about my day. At seven o'clock I get up and I have breakfast with a portion of canned food or fresh, dry food that people fond of me give. At ten o'clock is sleep time. At twelve o'clock I am looking for a human friend to play with and to receive input or find areas where I can climb and some toys to spend time with. The afternoon is the ideal time to rest and At five o'clock is the right time to play and eat. In the evening I look for a place to spend the night and I return the next day looking for a ma who will take me home.

hello i am a cat my name is micio and i live in the the street, i eat the

whatever I find and sometimes the food that mu human friends bring to me. This is my Life and i don't mind but i would like to have as soon as possible a place to stay because I'm afraid of the dark and scary night.

The main activity that I perform during the day is sleeping. Adult cats are able to sleep up to 16 hours on average.

I can spend around 2-3 hours licking every little inch of their hair with great care and attention.

The cat spends a portion of its day marking territory, usually to check if it is being kept well. They check if the traces of their presence, pheromones and scratches, remain evident.

One of the activities that I really enjoy is observing everything around me. In fact, I spend a lot of time sitting or lying down, with my eyes wide open to observe everything around me. Usually I look for a safe place where I can be unnoticed, for example a balcony or behind a window.

Eating: When it comes to eating, cats tend to eat small snacks on a regular basis instead of only having two large meals a day.

In the mornig I go looking for food. I see lot of people passing by and also people who leave me good. In the afternoon he puts me to play with my cat friends. In the evening I eat some food that I look for during the day and I go to sleeping near the engine of cars because it gives off heat
