HASSELT IN STATUES

Welcome to Hasselt, the capital town of our province, Limburg. The city's history goes back to the 7th century when it sprang up alongside the Helbeek, a small river that now runs under the city centre. The name of the city means 'place with a lot of hazeltrees'. These hazeltrees are therefore to be seen on Hasselt's coat of arms.

This afternoon you have the opportunity to enjoy a stroll in our 'city of taste', as it is called in Flanders. Below you find a number of pictures of some of Hasselt's statues. Your assignment is twofold: try and locate these statues and

- 1) Give the name of the statue and if possible also the designer's name and its meaning.
- 2) Take a creative picture of your team here.
