

**Form:** 6th

**Subject:** ICT

**Teacher:** Mine Şenol

**Topic of the lesson:** Writing an essay with Word programme

**Objectives of the lesson:** To learn using word programme, To write an essay about feelings that they have after watching a video, To learn to delete wrong letter on Word Programme ,To make a paragraph, To learn using keyboard,

**List of required material:** Lesson book, computer, projection

**Process of the lesson: teaching and learning activities**

The teacher opens a word page and show how the students use it. The students make some practices to write on a word page and delete a wrong letter .The teacher shows how to use the paragraph button on the keyboard.

The teacher shows a short text on projection and students try to write it. While they are texting it. The teacher corrects and helps the students .

After that The students watch “lonely desks” and the teacher asks their feelings about it. Students express their feeling about it.

Lastly Students try to text some part of the story by using word programme and the teacher check their paragraphes.

At the end of the lesson They will learn the story of students in the war and they will write an essay about the video on computer by using Word programme correctly.

**Additional material** (tasks, handouts/worksheets):

1. Video “lonely desks”
2. A paragraph from “Lonely desks”
