

# Impact

## Improving internationalisation policy during the IMPACT-project

1. Fill in internationalisation scale
2. Assess your level
3. Set up a plan to improve the level of internationalisation in your school
4. Use the PDCA format
5. Think short and long term

### Plan:

#### Short term:

Promote an **International breakfast** the last day of this school year where parents from different countries bring some traditional dishes to share with the school community.

#### Long term:

Create an **International corner** with different materials (books, games, etc) from different countries including a big world map to locate the origin countries of our students.

**Do:**

**Short term:**

The International breakfast would take place the 21st of June during the end of the course party. Each family will bring a traditional dish, including a little flag and then we'll classify them by country and share with the teachers, students and the other parents.

**Long term:**

The International corner would be created during the first term of the next school year (september-december 2018). It could include materials in different languages, also traditional games from other countries and specially children could label the flags of their countries in the world map.

**Check:**

- Share the videos and photos from the International breakfast in the school's webpage.
- Show how students use the International corner in different ways (videos, photos, etc)

**Act:**
