How to stay safe online?

NEVER plan a secret meeting with an unknown person

They can be older than you think. They can sexually abuse you. They can do a lot of scary things. Worst of all, they can also kill you!!!!!!!

STAY SAFE

Be aware:

1. If you once made a profile on Facebook, Twitter or similar, your informations might stay public forever.

2. You should never give your real personal informations when you are signing up to something.
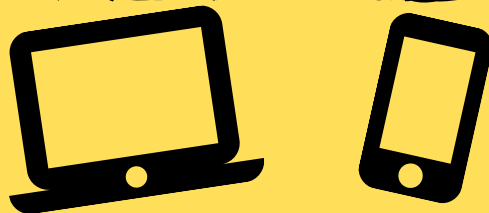

3. You cannot believe every singe person, expecially if you do not know them.

4. Your nudes can end up online if you send them to the wrong person.

5. And do not chat with someone you know nothing about.

6. If a person you do not know in real life, starts a conversation with threatening messages with you, tell this to your mum, dad or the closest police officer immediately!

7. And do not participate in online prize games. They can be dangerous and you also can get a lot of viruses on your computer .

How can you stay safer:

- make your passwords very hard to figure out,

- make sure that apps or sites you are visiting cannot get your informations,

- avoid sites that can give you viruses,

be careful and think about everything you do:)
